Compiled by Our Staff From Dispatches unrest as of Sunday. The figure was the first official toll of deaths. But The Associated Press, cting ALGIERS - The government announced Tuesday that a state of Sege in Algiers and its suburbs would be lifted Wednesday, after a week of unrest in which as many as 450 to 500 people may have been reports from the police, hospitals and other sources, said that as many as 300 people might have died.

Agence France-Press, quoting hospital sources and witnesses, reported that between 450 and 500 people had been killed. Medical sources told AFP that the number of wounded was also very high but said that many people injured in recent demonstrations had not dared go to hospitals.

And Reuters, reporting from Paris, quoted Western diplomatic sources as having said that 400 to 500 people had died in the riots, adding that foreign press estimates had been too low.

Officials in the Algerian Infor-mation Ministry said Tuesday that the reports of 450 to 500 dead had been "exaggerated." But AFP reported that the officials had acknowledged that the official toll to date fell short of the total number of deaths.

His address came hours after troops fired machine guns into a crowd of more than 10,000 in the The government declared a state of emergency Thursday and anthorized troops to fire on demonstra-Algiers district of Bab-el-Oued. tors if necessary to disperse them. Monday's demonstration in

Cocaine Profits not mentioned in the latest indictments. The federal grand jury in-dictments were handed down in LONDON --- One of the world's Tampa. Indiciments also were unsealed in several other U.S. cities BCCI, an international bank holding company based in Luxem-bourg and owned by wealthy Gulf Arab interests, was named as chief defendant in the case. The bank said in a statement from its main London office that "at no time whatsoever has it knowingly been involved" in laundering of drug money.

More than 80 individuals were also charged by U.S. prosecutors with involvement in the alleged laundering scheme.

Officials said that at least 40 people had been arrested around the world, including the United States. Britain, France and Argentina. U.S. federal prosecutors said they were seizing up to 40 accounts from the bank and had obtained a restraining order preventing the removal of any of its assets from the United States.

The indictments named Bank of Credit & Commerce International SA, which has operations in the United States and Britain, and Bank of Credit & Commerce (Overseas) Ltd., organized in the Cayman Islands and operating in France, Panama, Colombia, the Bahamas and the United States, in additioo to the holding company. Capcom Financial Services Ltd., a Londoo-based company, was also charged in the indictment and one of its officers was arrested in Britain, officials said.

BCCI, founded in 1973, has assets of \$19.6 billioo and operates in 73 countries. Its management is primarily Pakistaoi, baoking sources said, and has been aggressively led by the bank's president and founder, Agha Hasan Abedi, 65, who is currently recovering from a heart-transplant operation.

Ethnic Strife Hits a New Region: Soviet Georgia

By Bill Keller

New York Times Service MOSCOW - The rape of a Georgian woman by an Azerbaijani man has led to an outbreak of ethnic unrest in Soviet Georgia, a region that had previously seemed bule affected by rising nationalism, Soviet and Western sources said Tuesday.

The incident, in the Marneuli region, near the Georgian border with Azerbaijan and Armenia, was reportedly followed by several days of demonstrations and has fueled a campaign to expel non-Georgians

from senior Communist Party and government posts in the republic. There were no reports of violent clashes or strikes, but in a sign of

high-level concern the Communist Party leader of the republic, Dzhumbar I. Patiashvili, visited the region last week to appeal for calm.

Armenians and Azerbaijanis, Georgia's neighbors in the Cauca-sis Mountain region of the south-ern Soviet Union, have been at odds since February over control of Nagorno-Karabakh, an anter the beginning Oct. 24. The diplomat jan but populated by an Armenian speculated that the possibility of

In U.S., a Voter Revolt **Interviews in Pivotal States Find** Many Fed Up With Men and Mud

By R.W. Apple Jr.

New York Times Service DE SOTO, Missouri — Much of the American public is fed up with the presidential candidates and the way they are running their campaigns.

People think that the candidates:

Are not up to the job they are seeking.

- Are fresh out of new ideas.
- Are afraid to face the issues.

 Are throwing too much mud and generating too little light.
 Those are the dominant conclusions that emerge from more than 200 conversations with voters and about 50 interviews with local political figures over four weeks.

The interviews took place in eight states in the Northeastern and Midwestern sections of the country, which contain many of the key battlegrounds that will decide the contest between Vice President George Bush and Governor Michael S. Dukakis of Massachusetts. This examination of pivotal states, designed in portray the campaign as seen by those who watch from afar rather than from the

special perspectives of the campaign headquarters and the candi-

dates' planes, has oow reached the halfway point. In the four weeks remaining until election day, Nov. 8, it will cover parts of the South, the Southwest and the Far West.

parts of the South, the Southwest and the Par weat. The dissatisfaction with the compaign is essentially the same bere in De Soto, Missouri, at the population center of the United States, as it is in Chicago and Pittsburgh and most other points along the 4,600 miles (7,500 kilometers) covered so far, from Cape May. New Jersey, on the Atlantic Ocean to the Upper Peninsula of Michigan and on to the Great Plains.

Herman Koch, a retired farmer, owns the pasture that contains the brass disc marking the population center.

His fellow Missourian, Harry S. Truman, is the politician whose name makes his eyes light op, and he tells visitors proudly that it says "Mr. Democrat" on his father's tombstone.

But Mr. Koch said that be and most of his neighbors in De Soto, a railroad town of 6,000 people, "don't think either side has made a case" in the presidential campaign this year.

Occasional forays into issues seem to have made little impression. They're not coming down and telling us what they're going to do," said Mr. Koch.

"They do a whole bunch of talking, but they don't give you any answers on the big problems. They just fight among themselves, See CAMPAIGN, Page 2

By Jane E. Brody New York Times Service NEW YORK - Migraine headache; long mired in popular myths and medical misconceptions, is at last yielding its miserable secrets to neurologists who study the cellular and chemical functions of the

brain. A half-century after migraine was na-ively labeled a psychosomatic syndrome involving constriction and swelling of blood vessels in the head, recent research scientists say the new view of migraine in lost work time and medical expenses. and chemical stimuli, from bright lights cal messengers deep in the brain.

attacks and the strange spectrum of possible symptoms.

Experts believe it also explains how available drugs work to prevent or reduce migraine pain, and will guide them to-ward still more effective drugs.

Migraine, the most debilitating common form of headache, afflicts millions of people around the world. In the Unithas revealed that it stems from a biologi-cal abnormality of nerve cells and chemi-ple collectively lose 64 million workdays

as a biological disease of the central ner-vous system could eventually help them the head, lasts for hours or days and may hormones and foods. In g a dysfunction in brain chemistry. explain the myriad factors that trigger recur as infrequently as once every other And while women represent about month or as often as daily.

> In addition to experiencing throbbing or piercing pain that can approach the intolerable, victims may become nanseated and intolerant to lights and sounds. They may experience distortions in cog-nitive functions, sleep disturbances and mood disorders.

Scientists Report Migraine Is No Longer Headache of Old

While reactions to stress can often ple collectively lose 64 million workdays touch off attacks in people who are prone a year, which costs the nation \$50 billion to migraines, so can a host of physical

two-thirds of migraine sufferers, the studies show this mainly results from hormonal factors that bring on migraine attacks in susceptible women, not from emotional instability or an undue tendency to malinger or complain.

The new approach to migraine, devel-oped over the last several years, has already stimulated a flurry of advanced neurological studies that have begun to

explain the basic mechanisms. Preliminary tests are now being con-ducted for a new drug that is believed to

compound produced by an English company, Glazo Group Research, and knowo only by a serial number, GR43175, is both highly effective in re-lieving migraine and, unlike other migraine drugs, remarkably free of side effects.

The Glazo drug, as well as other similar new compounds, can stimulate at least one of the many actions of serotoain, a cerve-cell messenger that becomes

ALGIERS -- Confronted with an explosion of rage in the street. Algeria's veteran revolutionary leaders have reached a crossroads on the long march from guerrilla warfare to effective management of a mod-ern state and its troubled oil economy.

Factions in the army, the National Lib-eration Front, which is the only legal party, and the government bureaucracy have en-tered a struggle over the country's direcoon. It is likely to prove decisive for President Chadli Benjedid's hold on power as well as his effort to modify the Soviet-style reform. centralized economy and rigid single-party political system.

In some ways, the week of rioting and bloodshed bere and in provincial cides flowed from the leadership debate, diplomatic sources said. Colonel Benjedid's op-ponents, seeking to slow or reverse his reforms, played a major role in stoking the tensions that led to widespread demonstrations and an army crackdown.

Disagreement at the top also was hardened and defined by the ready anger of thousands of Algerian youths no longer between for Third World governments and

willing to accept government explanations for their unemployment and poverty, the sources added.

In any case, the debate has been well drawn over the last 10 days, making a

NEWS ANALYSIS

between diehards of the party's old-guard revolutionaries and Colonel Benjedid's followers, who are eager to move ahead with economic liberalization and some poliocal

The outcome could go a long way in determining the future personality of the North African nation. Since independence from France in 1962. Algeria traditionally has been known for its unusual mix of pragmatism in dealing with the West along with an espousal of Third World causes and doctrinaire socialism at home.

The hinge role abroad has proved useful to the United States - when U.S. hostages were released from Iran in 1981, for examans, was among grievances cited by rioting

groups unfriendly toward Washington. It Moreover, the Algiers of Poli-also has been useful to neighbors in North sario, the Western Sahara guerrilla force Africa, where Algiers has taken the lead in regional integration talks with such disparate countries as Libya and Morocco. In addition, the Algerian leadership has

been widely admired among Third World liberation movements as an example of guerrilla chiefs hard enough to defeat a European power and also wise enough to make the transition to respected government officials. A number of leaders in the Palestine

Liberadon Organization in particular have looked toward Algeria for inspiration, including during the current debate over a provisional Palestinian government along the lines set by the National Liberation

Front 25 years ago. But the current unrest apparently has buried Algerian plans to host a Palestine National Council session planned soon to approve a PLO declaration of indepenence. The government's sponsorship of such gatherings, a costly show of hospital-ity amid the austerity imposed on Algeri-

In France, Socialist Government FRANCE: **Remains Quiet on Algerian Unrest Defense** Links that was "illogical and hard to fol-low" for public opinion.

By Joseph Fitchett rnavonal Herald Tribune PARIS - The confrontation in Algeria has been greeted with embarrassed silence by France's So-

zialist government. French support for human nghts, according to officials speak-ing privately Tuesday, must be balanced with France's interest in preventing the conflict in Algeria from worsening

The officials said that they fear that unrest could spread to neigh-boring North African countries and perhaps spill over into the large numbers of North African immigrant workers in France.

The government attitude has triggered sharp ideological criticism from conservative commentators, who are comparing the sympathetic Socialist attitude toward Algeria with the way in which French leftists once condoned re-

pression in the Soviet Union. A French official, cited Tuesday in Liberation, the Paris daily, said: "What's at stake here is not just a simple government position and expression of principle, it's the ac-tual future of our relations with

Algeria." In Algeria, a French colony that won its independence in a revoluoon, the "government is walking on eggs," Libération, a pro-government daily, said Tuesday.

The government has besitated to speak out, officials said, because its fears that President Chadli Bendj~ did's predicament could play into the hands of Islamic fundamentalists, creating an even worse situa-

ments emphasize disarmament. Military officers, cabinet minis ters, and other high officials who

deal with defense issues attended the speech at the Ecole Militaire. traditionally given by a French president once during his term. Discussing new French weapons, Mr. Mitterrand said that France would "never deprive berself of weapons that other powers have." This was an allusion to the nentron

bomb, which France, the Soviet Union and the United States could manufacture but have chosen not unemployed.

Neutron warbcads, with Hades missiles, Mr. Mitterrand said, would provide accuracy enabling France to threaten Soviet secondechelon forces.

But be added, "nothing should be done that might interfere with the current bid for disarmament in the world," a comment that appeared to be a call for restraint in modernizing weapons.

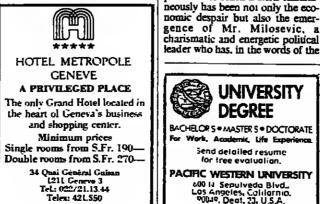

He went on to say that he "would not rule out a review" of Hades if other countries started negotiating about their very-short-range nuclear weapons.

Traditionally, French govern-ments have been skepocal of armscontrol accords, regarding them primarily as political maneuvers. But Mr. Mitterrand, since his reelection in May, has repeatedly stated his belief that the next few years could offer an unprecedented chance to obtain concessions from the Soviet Union.

The Mr. Benisen had far outperformed Mr. Quayle in their debate. surveys also found Senator Dan Quayle. Mr. Bush's running mate. to be a drag on the Republican ticket.

In an ABC News-Washington Post poll, Mr. Bush Led Mr. Dukakis by 50 to 47 percent, within the survey's four percentage point margin of error. The survey, of 600 likely voters, suggests that the Re-publican ticket was burt by Mr. C10. Quayle's performance in last week's vice presidential debate.

The second survey. lor the Los Angeles Times, showed the Bush-Quayle ticket leading Mr. Dukakis and Senator Lloyd Bentsen 44 to 41 percent. The margin of error of plus or minus five percentage points could close the difference. The Times questioned 893 registered voters. Polls of registered voters are less reliable predictors of the outcome of an election than those of likely voters.

When asked to treat Mr. Bush said Mr. Quayle was unqualified to and Mr. Dukakis as if they were take over the presidency, while just

over a third said he was qualified. Mr. Bentsen appeared to help lumself with his debate performance. Voters declared him the winner by better than a 3-to-1 ratio and expressed a more favorable view of him than they did of Mr.

Short Takes

2d Bush-Dukakis Debate

WASHINGTON (NYT) -- Governor Michael S. Dukakis and Vice President George Bash will meet in their second and last debate of the presidential campaign on Thursday at 9 p.m. EDT (1 A.M. GMT Friday), at the Pauley Pavilion of The University of California at Los Angeles, the campaign officials said.

The date was confirmed after Oakland swept the American League playoffs from Boston Sunday, climinating the possibility that a telecast of the seventh game might conflict with the debate.

A Dukakis Science Plan

MEDFORD, Massachusetts (AP) - Michael S. Dukakis on Tuesday proposed a plan aimed at restoring U.S. dominance in science and technol

He also proposed recruiting active and retired scientists and engineers to teach on at least a part-

time basis, creating workplace centers to retrain employees for new technologies, and establishing a network of national centers of excellence modeled after state programs that encourage research and technology development,

Quayle Tries Once Again DETROIT (WP) - Senator Dan Quayle, pre-

sented again with a key question from his vice-presidential debate a week ago, Monday gave his latest answer to what he would do if he suddenly assumed the presidency.

"If it is an assassination, the first thing to do is you get on the phone and call the head of the CIA and see what be thinks it was," Mr. Quayle said, in response to a written question from a member o the audience attending an Economic Club of Detroit luncheon.

Trouble in the Balkans

Dominated for decades by a man who took orders from no one, it resisted Stalin's iron grip and remained steadfastly nonaligned. Now, goaded by an ambitious politician named Slobodan Miloscvic, it is torn by turmoil that seems remarkably like the ethnic rivalries crupting in parts of Mikhail Gorbachev's empire from Armenia to the Baltic.

Page 4

But this Balkan crisis is as worrisome for the West as it is for the East. What makes Yugoslavia unusual in East-

ern Europe is not only its independence from Moscow but also the sharp rivalries that divide the mini-states of the confederation.

The man who kept this collection of nationalities together was Marshal Tito, who led the Communist partisans in World War II, then broke with Stalin after the war. Through sheer personal power, Tito bound ethnic Albanian tu ethnic Slav.

When be died in 1980 at 88, he thought he had guaranteed continuity. The constitution he approved sought to preserve a rickety internal peace by granting considerable antonomy to the six republics and two provinces. But if decentralization has held the federation together, it has also complicated attempts in tackle Yugoslavia's daunting economic problems.

Inflation exceeds 200 percent, while incomes are tightly reined by agreement with the IMF. Foreign debt stands at \$21 billion, higher per capita than Poland's. And the currency fluctuates so wildly that the foreign exchange listing in the newspapers is

Yugoslavia has long been a maverick known as the obituary column. With the among the nations of Eastern Europe. country's economic and political structures under such strain, long-suppressed ethnic antagonisms have dramatically resurfaced.

Mr. Milosevic, the Communist Party chief in Serbia, the largest republic, seeks to enhance his power by mining the rich vein of Serbian nationalist resentment. The Serbs have long chafed under the assumption that a strong Yugoslavia required a weak Serbia. Now, spurred by Mr. Milosevic, they are making their resentment felt in the streets. This resurgent nationalism is matched by economic grievances oot limited to the Serbs alone.

The government has reacted to these twin threats with special security measures, coupled with the promise of oew attempts to contain inflation.

When Mr. Gorbachev visited Yugoslavia earlier this year, he saluted its pioneering role. And in fact Yugoslavia has gone well down the road toward political pluralism and a market economy that nther Communist states now warily eye.

But, hampered by ethnic tensions and a weak central government, Yugoslavia has

tions. Either way, the West, every bit as much as the East, can only be alarmed by the unleashing of ethnic hostilities in the Balkans.

Yugoslavia, Algeria, Latvia, Armenia, Chile, Poland, Burma, South Korea - at an astounding number and range of places on either side of the weakened Iron Curtain a stunning global pattern is taking shape. Great numbers of citizens previously atomized, intimidated or apathetic are coming into the streets to assert a collective consciousness and, mostly peacefully, to press their grievances and demand redress. Each outburst has its distinctive causes, some economic, some political, some worthier than nthers. Yet it is apparent that modern communications have created links among otherwise scattered peoples and that a powerful force of related purpose and mutual encouragement is at work.

There is always injustice and a craving for undeserved power in the world, and there are always brave people prepared to struggle against the one or the other. The scope and parallel profiles of the current actions, however, suggest something special. People are asking for what they regard as their political or ethnic or economic birthrights. They are demanding that the authorities of their societies respond to them. Their instrument, furthermore, is generally not armed revolution, conspiracy or terrorism but mass protest conducted in the light of day. The means as well as the ends are a tribute to the democratic idea.

Some part of this development, we suspect, traces back to human rights support given to repressed peoples during the now so widely condemned Carter years. Some part comes too, no doubt, from the boost liberalized only in fits and starts. And it has so far been unable to translate the quest into a political and economic model which can withstand the stresses of change. Mr. Miloscvic's appeal to nationalism may or may not resolve Yugoslavia's contradio -THE NEW YORK TIMES.

A Wave of Protests

Plainly something is owing as well to the particl exercise of these ideas, sharply limited as it has been, by Mikhail Gorbachev. The reduction of great-power tensions seems to have made room for people to assert what has long been on their minds. In what they say, one senses a desperation going beyond rage, a feeling that the time is now or never to catch up with the opportunities that modern life offers.

The old authorities, meanwhile, seem caught unawares. Whether through a premonition of common sense or a loss of confidence, their tendency - not everywhere equally in evidence - is to bring to bear less force than they might, to propinate some of those protesting and to avoid calling down international rebuke on their own heads. Typically, their programs are halfhearted and only spur on the protests. Democracies are not proof against punches, but they roll with them. Political structures not grounded in popular legitimacy respond only slowly and unsurely; they can strike back.

If the spirit of the far-flung demonstrators is in some measure democratic, that does not mean that their success would everywhere enshrine democratic practice. Many of these societies lack a habit of democracy; many of the protest movements are merely seeking a little more material comfort or autonomy in their own affairs; ethnic movements in particular have a potential to turn nasty. Still, there is something reassuring about the sight of so many regimes that are autocratic and worse having at least in some degree to answer to the Wanted: Leadership for a Threatened Planet

OPINION

A MERICA's air is mostly breathable. Its run up by the Reagan administration. Yet whoever wins the presidential election cannot age usually ends up in treatment plants, not in the nearest river basin. That much has been accomplished by the environmental laws of the early 1970s. Yet the campaign is only half won because tighter controls have been offset by the extra pollution from economic growth. Worse, society now confronts a new generation of environmental dangers, more insidious, farreaching and intractable than the old.

The thinning of the life-protecting ozone layer in the high atmosphere is one such threat. Global warming — the feared greenhouse ef-fect — is another. Air pollution, like acid rain and smog is croding the life of lakes and forests throughout North America and Enrope. Pollutants draming off city streets and farms poison the coastal waters on which many estuarme and oceanic species depend. The world's richest nurseries of life, the tropical forests, are being destroyed at a horrifying rate of about 21/2 hectares (about 6 acres) a minute.

. The summer of '88 bristled with warnings, yet this second generation of environmental threats is not well understood. How can society find the money, courage and global co-operation to conquer them? There could hardly be a more urgent issue for debate in a presidential campaign. Yet where are the ideas of the candidates, the men who profess to lead the way against the urgencies of the 1990s?

The old environmental problems consisted of visible threats to human health or comfort, often emanating from a single source like a plant or toxic dump. The remedies were clear enough: Make the offending industry pay to install pollution controls or clean up. The new generation of problems is far hard-

er to tackle. The sources are many and diverse, the damage often invisible or indirect. The victims are the ecology and the atmosphere, with delayed damage to human well-being. Powerful interests inhibit the search for solutions. Just last week in Washington, under pressure from utilities and the coal and auto industries, the U.S. Congress gave up once again on efforts to combat acid rain and smog through reform of the Clean Air Act. When George Bush and Michael Dukakis

talk environment, it is about barely relevant issues like Boston harbor and offshore oil drilling. Any remedies the candidates might propose are cramped by the immense debt

hope to escape the issue, any more than voters can escape thinking about it.

HUMANS have always thought the atmocounteractive forces, that pollutants could make only the most gradual changes. No longer. The "ozone hole" discovered over Antarctica in 1985 seems to have been caused by minuscule amounts of man-made chlorine that reached the high atmosphere.

Ozone, although hazardous to plants and animals at ground level, serves as a life-pro-tecting shield, screening out the sun's ultraviolet light that would otherwise cause an epidemic of skin cancer. Aside from the ozone bole, which mercifully is so far limited to Antarctica, chlorine seems to have caused a 3 percent thinning of the worldwide ozone sheld in the last 20 years.

A corresponding surge in the ultraviolet light reaching Earth has not yet been detected. But that is an reason for delay against so profound a threat to all forms of life. Last year, at the urging of the United States, several governments signed the Montreal Protocol, an agreement to freeze and then halve their production of CFCs, the industrial chemicals which carry chlorine up to the ozone layer. That is only a first step. CFCs take some 15 years to waft up to the ozone layer; destruc-tion of ozone would continue that long even if all CFCs were banned tomorrow. A complete, worldwide ban on CFCs and the related halons cannot come too quickly. The next presi-dent has some hard diplomacy ahead.

The Montreal Protocol may be a model for addressing another worldwide threat, the greenhouse effect. A group of waste gases, chiefly carbon dioxide, CFCs and methane, trap heat from the earth's surface that would otherwise escape to space. Carbon dioxide, released by burning coal, oil and wood, has been steadily collecting during the last centu-ry. Theory suggests that the world's atmo-sphere should already have started to warm. Four of the last eight summers have been

the warmest in a century. The drought in the United States and the floods in Bangladesh are exactly the effects expected in a greenhouse-warmed climate. These are ominous warnings, but fall far short of proof that the

glubal warming has begun. Yet if prevention is delayed until proof is irrefutable, a profound set of irreversible changes in climate will already have been set in motion. Rain patterns and crop ranges will shift toward the equator. The Gulf Stream may shift course, ceasing in warm Europe. If the West Antarctic ice cap melts, sea level could rise 6 meters (20 feet), forcing the evacuation of New Or-leans, New York, London and Beijing.

What remedies are sensible to cootemplate? There is little justification yet for the enormously costly step of abandoning the use of coal. But several insurance measures against greenhouse warming are worthwhile in their own right. Banning CFCs is one. Saving tropical forests is another, since trees absorb carbon dioxide. American cars, houses and appliances could all use energy more efficiently, with fewer waste gases. Nuclear power plants produce neither car-

bon dioxide nor the gases that form acid rain. Development of a new kind of nuclear reactor, inherently safe and affordable, is a practical priority - but one scandalously neglected by the Reagan administration.

MERICANS have oo idea how much A waste their life-style engenders: a yearly 25 tons per person. Only 3 percent of that is household garbage; most comes from indus-try, agriculture, sewage plants and incinerators. Toxic waste is now sent to monitored dumps. But much of the rest escapes, brutally testing the resilience of natural systems.

Nearest to crisis are coastal waters and estuaries. More than \$300 billion has been spent on controlling water pollution since 1972. Yet with millions of people crowding the coastlines — by 2000, 75 percent of the U.S. population will live within 80 kilometers (50 miles) of shore - the deluge of waste is overwhelming. Coastal waters are being poisoned by pesticides flushed off farms and suburban yards. Nitrogen from treated sewage and fertilizer runoff stimulates algae blooms that suffocate fish. Chesapeake Bay, Long Island Sound and San Francisco Bay are all at grave risk. Urgent reform of farm practices is one remedy. Another is to upgrade sewage plants and combined storm-sewer lines like New York's, that overflow after heavy rainfall.

Eastern U.S. lakes and furests are threatened by acid rain. Injected into westerly

winds by tall smokestacks in the Ohio Valley, waste gases mingle with moisture and fall as mild acid in the Adirondacks, New England and Canada. Under the continual chemical assault, many lakes have died.

Forests are also starting to show signs of widespread decline. In the U.S. Northeast, red spruce and maple are dwindling. Growth rates of yellow pines in the South have dropped by half in the last 30 years. The damage is even more serious in the industrial heartland of Europe. Air pollution is almost certainly to blame, with acid rain and ground-level ozone the leading suspects. The next American presi-dent will have httle time to prevent Appalachia's forests from going the way of Europe's. Tropical forests face a more immediate

threat, Governments like Brazil's disastrously encourage settlers to clear forest land for agriculture. But the soil, despite the forests' huxuriance, is poor. It yields crops for a few years, then it reverts to wasteland and the settlers move on to burn still more forest. In the Brazilian state of Rondonia, home to a fifth of the world's plant and animal species; 17 percent of the forest is already gone. The 170,000 fires counted last year in the western Amazon contributed a tenth of the world's production of carbon dioxide.

The richness of tropical forests is the fruit of 50 million years of uninterrupted evolution. That millions of species and their home should be destroyed so wantonly is a historic offense, even though no law recognizes it. Persnading countries with tropical forests to preserve them is an urgent duty for the next U.S. president.

HERE is little in either presidential L candidate's record which displays deep understanding of environmental issues, al-though Mr. Dukakis passed legislation in Massachusetts to carb acid ram and Mr. Bush has oow broken with the administration in calling for an acid rain program. But, ready or oot, the oext president will have the issues forced upon him.

Persuading Americans to endure immedi-ate costs for a long-term benefit will take leadership. Negotiating with other countries jointly to avert unproven risks will require statesmanship. The alternative is a steady, perhaps even catastrophic decline of the natural systems on which life depends.

-THE NEW YORK TIMES.

As the Chinese Nurse Their Burns, Gorbachev Turns Up the Heat

By Alexander MacLeod

Communist rulers, in trying to change their system, face a contradiotion: Easing the rigidities of economic and political structures may stimulate local initiative and produce more goods, but it pushes up prices and creates social and moral dislocations. This trap, which China's reformers are trying to skirt, awaits Mr. Gorbachev unless he has answers that have

is trying to reform has been in place for 70 years, compared with less than 40 for China, Generations of Soviet workers and officials have grown used to being stuck in the centralist mud, with modest expectations of what the economy can provide.

Mr. Gorbachev is now deliberately fanning those expectations. As Mr. Deng began to do 10 years ago, he is encouraging the party and the public to believe that a single-party system prevent such things happening. can remain in place even as the economy is being freed of the constraints

eluded Chinese leaders. Indeed, Mr. Gorbachev's difficul-loser pricing arrangements, as will

Dispense With S&Ls

As the losses of insolvent savings and loan institutions keep rising, it is obvious that there is going to have to be an enormous ballout with taxpayers' money, and the sooner the better. The only real question is on the other side of the deal. What will America's taxpayers get in return for the \$50 billion or

more that this cleanup is going to cost? Simply folding up the failed S&Ls is not nearly enough. The failures are the product of a weak and degraded regulatory system that has historically been dominated by S&L owners, their trade associations and their friends in Congress and in successive administrations. The time has come to abolish the savings and loan industry.

Strong and profitable S&Ls, of which there are many, are indistignishable from banks except that they are more loosely regulated. It is time to require all the S&Ls that qualify to turn themselves into banks and out themselves under the stronger and better-policed rules that govern banks. Those which cannot qualify as banks are too fragile to survive, and for safety's sake they will have in be merged or shut down.

The justification for a separate S&L system — separate institutions, separate laws, a separate regulatory agency - has ling since faded. There was a time when in most cities there were areas in which the banks were reluctant to lend. The nuly sources of

than a temporary patch job? year — what assurance are they going to offer that it won't all happen again?

Other Comment

Serbs Are Playing With Fire

The Serbian Communist Party leadership is playing a dangerous game by using Serbian nationalism and anti-Albanian senoment to generate popular support for itself and deflect discontent over the economic situation to the federal government. The attempt to downgrade the status of the autonomous regions of Kosovo and Vojvo-

dina has run into the strongest resistance from the republics of Slovenia and Croatia, which would seemingly be unaffected by the 'move but which have always perceived any manifestation of Serbian nacionalism as a threat. Yet the Serbs seem determined to push the change through over all opposition. Yugoslavia is evidently in for further strife, with the danger of unpredictable escalation.

credit for people trying to buy homes were often the oeighborhood-based S&Ls. But now it is illegal for banks to red-line neigh-borhoods. And many of the S&Ls have grown into big operations, taking deposits just like banks and engaging in a very wide range of leading and investing. Over the years the industry has lobbied in

Washington with untable success for preferential treatment nn grounds that the industry is essential to housing construction and real estate sales. But there are many sources of mortgage money, and the present financial catastrophe shows the necessity of abolishing the preferences and potting them all under the same standards.

Both the Reagan administration and Congress are desperate to avoid any serious discussion of the insolvent S&Ls until after the election. In the kind of gesture that invites derision, the House of Representatives voted last week for a bipartisan commission to study the situation. That's a dodge. There are very few people in Congress who do not know precisely what has gone wrong. But are they prepared to undertake anything more When they present the public with the bill for fulding up the insolvents - as they surely will next

-THE WASHINGTON POST.

- Neue Zürcher Zeitung (Zurich).

Price reform was supposed to be

the heart and soul of Mr. Deng's program; now it is reviled by his occuracions for incauning stability and undermining communism itself. For Mr. Gorbachev, developments in the other Communist supernover in the other Communist superpower are a reminder that his own course, for all its economic attraction (China's economy is growing by about 12 percent a year), is politically perilous. They also undermine a reality about the reform of a Marxist system: One cannot suddenly swerve

from a statig planned economy to a system that gives the people greats initiative without increasing political and economic tensions. China's rulers now know that loos-

ening up a centralized system pro-duces bottlenecks and shortages in

P ARIS - "America is the envy of the world," said Dan Quayle

The second time I saw the sena-

tor from Indiana debate the senator from Texas, Lloyd Bentsen, I was

watching a videotape in the living

room of a prominent American liv-

ing in a penthouse apartment here. A small crowd of Americans -

mostly Republicans, I think - and

a few Frenchmen and Germans laughed at Mr. Quayle's proud line.

As if he heard the knighter, the taped Quayle added that whether or

not that crowd believed it, most

Americans sure did. I'm sure he was

right about that, but he was wrong

about his main point. America is the

wonder of the world and Americans

are liked and admired almost every-

where, but life in America is no

longer envied, particularly by the

world's growing middle classes. For most of this century, hun-

dreds and hundreds of millions of

people around the world believed that in America the streets were paved with gold. Now millions and

millions know that some of the most

famous streets are paved with pot-

seen as savage by pro-American cit-izens of Stockholm or Milan and by

energetic capitalists in Tokyo or Singapore. People who take for granted free medical care and free

education and know nothing of fear

on their own streets are not lining

up anymore for immigrant visas to

an America that sometimes seems

the best of American medicine and

education is probably the best in the

world, better than most of them can

ever expect for their own children.

But the price is too high for them in

both money and social tensions.

Many of them are well aware that

wretched and tempest-tossed.

Life in lean, mean America is

holes and haed with beggars.

in Omaha. It didn't play in Paris.

radically changing the old system of wastefully subsidized prices. All this creates a vicious circle, with Mr. Zhao right in the middle of it. As party general secretary, he has the job of setting national goals and then try-ing to energize 40 million members to

June viewed Mr. Znao last month, at a time when the informed gossip in Beijing was hinting that he might be on his way out. I found no evidence of that. He has become as much a symbol of modernization as Mr. Deng himself, and he is far more

capable of carrying it through. "We met with many new prob-lems," he admitted, "problems which have not been encountered in other socialist countries. We in China have solved the problem of our eventual goal: Our country is a socialist coun-try, but it is socialist on the basis of a planned commodity economy. The state should regulate the market but enterprises should at the same time guide the market. While public ownership should still play a predomi-nant role we should at the same time develop many forms of ownership." Since I spoke to him in 1984, he

said, "we have expressly allowed private ownership — that means the right to hire workers. Our constitution has been changed to permit the private economy to exist in China-

way of privatization." Mr. Zhao admits problems: "The

old system has been greatly weakened, but the new system has not been fully established, so we have established, so we have contradiction and frictions ... We have a market, but it is not well grounded. We have a competitive mechanism, but it lacks order and regulation ... We still lack, a healthy and sound series of laws to govern our market. As a result, we have inflation and turmoil in the flow

of goods and money.". China's biggest problem, he said, is the removal of price controls. But let removal of price controls. But let removal of price controls. But added, will not work unless more conceptises start basing themselves on productivity, not politics.

on productivity, not politics. Collective party decision-making in which Mr. Zhao played a major if reluctant role, has come down on the side of caution. The word is to go slow on construction and on capital investment. Beware of economic overheat ing and avoid freeing prices, which in the to wage earners, especially intellector

als and bureaucrats on fixed salaries. Yet undeniably, economic imbeen spectacular. Even hard-pressor city dwellers have enjoyed freedoms and creature comforts recently incom-ceivable. But unlike Mr. Gorbacher, Mr. Zhao has yet to crack the east crusted party eders. Their conven-tional wisdom, weighed down with Marxist dogma, makes the pace of economic modernization harder to a Gorbachev's political success.

1938: Air War Ban?

100, 75 AND 50 YEARS AGO

1888: Kaiser in Rome

ROME — The train conveying the Emperor William arrived here Oct. 11. The arrival was signaled by the firing of 101 guns from St. Angelo. The immense crowd cheered vociferously as the Kaiser descended from the saloon carriage and hastened to King Humbert, whom he embraced three times. Tomorrow the Emperor will visit the Vatican when unwouted ceremony will be observed. Troops will be drawn up on the stairs and in the antechambers and the Cardinals of the Sacred College will be in attendance.

1913: Disaster at Sea

WASHINGTON - Two hundred and thirty-six lives are feared in have been lost in the burning in mid-Atlantic of the British steamship Volturno. The steamship caught fire while a furious gale was raging. Ten hiners, attracted by the Volturno's wireless calls for help, went to the aid of the stricken steamer.

CHEROKEE - An international agreement to outlaw the use of airplanes as an instrument of war was proposed Oct. 11 by Secretary of War Harry Woodring in a speech at Chero-kee, Oklahoma, In view of the fears of the peoples of the world regarding the bombardment of civilian populations he felt that the abolition of aerial warfare was the least that could be done to tranquilize them. Secretary Woodring said that the most desirable step would . be a conference to limit armaments. but he opined that the time was not ripe for such an effort. NEW YORK — Gold valued at

\$45,000,000 flowed into the United States today [Oct. 11] from Europe, bringing the total of gold shipments to America since Oct. 8 to \$125,000,000. An exact figure on the amount of gold received since Oct. 1 is lacking, but it is estimated unofficially that the United States now holds gold to the value of over \$13,000,000,000, or more thanhalf the gold in the world. 12.00

ing by rigid rules beginning with good grades in the first test in the first grade of school. America's secret is the freedom to fail - and to In conversation these last few in conversation these last few years, American cities, spectacularly rich and frighteningly impoverished (particularly New York), are often compared with Third World cities. "New York used to be like Paris, but new in minimum of the Paris. try again, and again, with a new idea, in a new business, in a new place, maybe with a new name or résumé. Now Americans have begun to talk to each other about the great American "family values." That is comedy to Frenchmen and Italians but now it reminds me of Rio," said a Frenchwoman who has happily spent much of her life nn the East Side of Manhattan. "New Yorkers who visit their mothers or grandnow see only what they want to see.

mothers every Sunday - if they don't still live with them. An Empty Chair on Camera **Might Get Voters Thinking**

وكذامن

By A. M. Rosenthal

whether the American people will choose Lee Atwater or John Sasso. Lee and John and their staffs decide how much of George Bush and Michael Dukakis is revealed or concealed in the television snippets through which the public follows this Great Campaign.

Lee or John will have a White House office. He will also have the warm glow of

ON MY MIND

knowing that the new president is a living titute to his creative snippetry. What Cater reward can a true artist ask? The Great Debates of the Great Cam-

paign get a lot of attention for a few days. But day in. day out, what counts is how the candidates come across in the sound bites, those carefully prepared little stants whose purpose is to get a few seconds of

Aside from the mean-spirited advertisements, those "news" snippets are about all the public sees of the candi-dates, and apparently all it cares to see. The American people are being manip-ulated into making up their minds on the basis of material almost at the intellectual

level of children's cartoons. Who is doing the manipulating? Not the anchors and reporters of the TV world in the half-hour allotted to them, world in the half-hour allotted to them, and do a good job for the limited time. Most days the stuff cooked up by the

seconds they get, except of course when they exhibit true comic genius, like mov-ing up Pearl Harbor Day by a few months or putting on Snoopy's tank heimet. The rest of the time the snippets are news fakes — cooked up and staged by the candidates' staff without even the saving verve of a good pratfall."

The television reporters dutifully try to make some sense of what has been shown. It is usually more than these little political tap dances deserve,

No use blaming Lee and John either.

They are getting paid to get their man

N EW YORK — This campaign is getting real exciting. Only about a month to go. and still nobody knows structed to flee press conferences. At all costs the men who fight for the responsi-bility of leading the country must not be allowed to say anything spontaneous. Leave the thinking to the speech writers.

Control is what counts in this game. Americans show no outrage at being treated like nincompoops. The sound bites give voters a comfortable feeling of being up on things without straining their minds. We manipulate ourselves. There is no "they." So instead of berat-ing television, Americans should be pleading with the men who run it to save

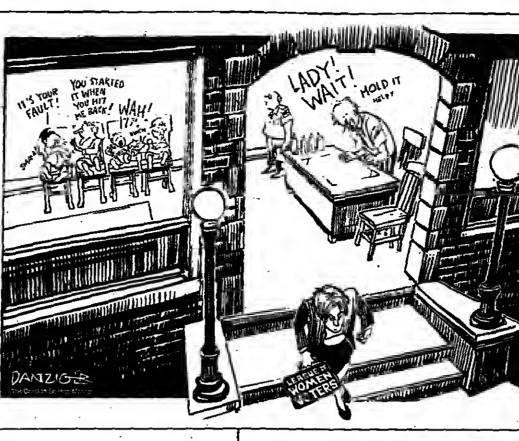

them from their own docility. The nomantic in us never really dies. The wistful thought remains that some-how the candidates could be threatened or shamed into preventing 1988 from going down as the most puerile campaign since Warren Harding and James Cox ht up the intellectual sky in 1920.

To do that, the country needs a plan for a decent campaign, fast. Conceivably, four men acting together might poll it off. They are the men who really run the networks: Laurence Tisch at CBS, Thomas Murphy at ABC, Robert Wright of NBC and Ted Turner of CNN.

They could ask their specialists to work out, together, a full political agenda of debates, programs on the issues, news con-ferences and solo appearances. One net-work at a time would run a selection from the menu each day until the election.

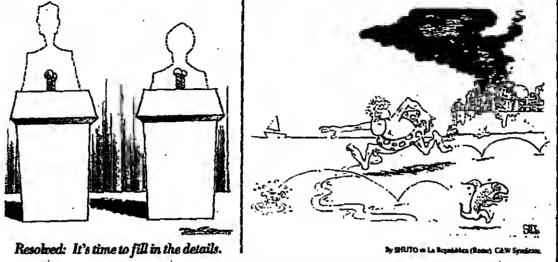

Most days the stuff cooked up by the candidates' handlers is hardly worth the seconds they get, except of course when mind to be an empty chair promi-nently displayed always, a daily re-minder of political cowardice that could mean the election.

These four men are the only ones who could make the decision to say to hell with ratings for an hour or two a day until election day. There would be a handsome payoff for each of them: The pride of shaking awake the real manipulators of the Great Campaign of 1988. The New York Times.

INTERNATIONAL HERALD TRIBUNE, WEDNESDAY, OCTOBER 12, 1988

OPINION

The Bleeping Fax Machine: You Ain't Seen Nothin' Yet

By Woody Hochswender

N EW YORK - Bleep. Bleep. There the rear of limonsines, using portable fax machines and cellular telephones. workday, waiting for an important mes-sage from the West Coast. Suddenly the facsimile machine pulses into action, chirping and buzzing, ejecting a printed page 30 seconds later. The document is from the Acme Wid-set Co. automic a new line of hyder

get Co., announcing a new line of budget widgets. Even if you needed a widget, you did not want to think about it right now. It's a fax attack. And there is not much you can do about it.

The word "fax," listed in Webster's as

MEANWHILE

cold-faxing you, so to speak. Someone you do not know can dial your fax num-

ber and leave a long, boring message. Even more aggravating, unsolicited faxes use your electricity and your facsimile paper (at about 10 cents a page). And when a fax machine is hooked up to a "dedicated" line — a phone line open to facsimile transmission at all hours of the day or night — there is little escape. It is a direct marketer's dream.

"We got our first junk fax recently, and it gave me a horrible chill," said Ravelle Brickman, who owns a public relations company in New York. "It uses up our paper and ties up our machine." The unwanted fax came from a company that sells facsimile supplies.

Facsimile junk mail has yet to fulfill its intrusive potential, however. "Fax directories have been compiled but junk mail hasn't reached the broad

level it will in a few years," said Roger Dooley, the publisher of Electronic House, a bimonthly magazine. He estimated that less than 2 percent of the 1 million fax machines installed in the United States are in private homes. But the oumber is growing rapidly. Sparked by new low-cost models, the

facsimile revolution has undeniably been more boon than bother. Advertising agencies can now send out storyboards and layouts to a flash. Corporate high-rollers fire off memos from

Fiesole, Italy.

The Problem Pushers

Regarding "Advertisers Just Say Yes to Anti-Drug Campaign" (Busi-ness/Finance, Sept. 14): If companies want to help with drug abase, they should look at how their advertising belos create the co-

analysis say lacaline machines will re-quire government regulation. But not all unsolicited faxes have a mercantile intent. Mark Pollard, the president of Pace Publications, got his first fax attack recently in the form of a full-page dirty joke. "It turned out to be from one of our printers in Minneapolis," he said. The fax can also serve as a negotiating tool. "I get contracts and deal notes from

all over the world," said Stanley Buch-thal, who produced the film "Hairspray." In the middle of a complex movie deal, he sometimes works the phone and the fax machine simultaneously. Keiko, a New York swimwear design

er, sends facsimile copies of her creations around the United States.

Boats, planes, trains: Wherever there are phones, there can be faxes.

by offices. Doctors transmit prescriptions

to pharmacies. In Tokyo, a chain of cof-

fee shops is equipped with coin-operated fax machines. And in New York and Los

Angeles, radio stations encourage listen-

ers to fax their song requests. In this oever-ending quest to push pa-per farther, faster, the fax machine has

changed the way we live, raising new

questions of protocol and privacy. Some analysts say facsimile machines will re-

Restaurant owners fax menus to near-

Page 5

While the fax machine has taken much of the uncertainty out of transmitting information, it has also removed some of the hypocrisy.

"You no longer make a decision about whether or oot to receive a call, and you never question the tone or manner," said Peter Arnell, a co-owner of the advertis-ing agency Arnell-Bickford Associates. "There's oo room for interpretation or for 'dears' and 'thank you's,'

Charlotte Ford, author of a book on modern etiquette, has not quite figured out proper fax decorum.

'It is rude," she said, to fax unwanted material to someone. And she did oot thick it suitable to fax party invitations. But, she said, "We're going to have to wait and see."

stress. Advertising plays on people's fears by pushing countless superflo-ous products as being essential for success and well-being. Bombarded by commercials since childhood, we believe that something "out there" (a new car? a designer dress? a designer drug?)

will make everything all right. No wonder we try to "solve" our probleans with a credit card, rather than looking at the real causes of stress. Jonathan M. Moses's frivolous attitude in this article was most offensive. He writes of the corn chip company that "shopped around" for an "appealing cause," as if AIDS, homelessness and drug abuse are so many designer labels peddled at Bloomingdale's. I am sickened by such greed and cynicism.

Munich

Struggle in Burma

In response to "Heroes or Pup-pets?" (Letters, Sept. 16) from J. M. Knowles:

Every child in Burma knows about the "30 Comrades" led by General Aung Sam in the country's struggle for independence. Burma's freedom fighters simply took the op-portunity to drive the British out when the Japanese overran Southeast Asia, and they would have tried their best to drive the Japanese out thereafter even if the British had not reopened the Banna front. Mr. Knowles fought for his empire and ostensibly for the Bannese in 1944. It was rather noble of the British to set us free; the only thing is, they had enslaved us for 100 years.

> · ZAW MIN. London

Mr. Knowles and his friends were never bberators, but contingents of the British colonial masters, which over the years occupied Canada, New Zealand, Australia, Burma, India and other Third World countries for the benefit of the First World. Third World nations can only become "beautiful countries" again when self-seeking First World stops interfering in their internal affairs. SATYA BRATA.

A Nation Responsible

Regarding "Money Can's Make II Right" (Letters, Sept. 8): Shame on Michael Mudd for carping about the modest compen-

sations voted by the U.S. Congress to the Japanese-Americans illegally interned during World War IL He bases his opposition on the ground that he was not alive then

Paris.

and thus has no responsibility. But there exists a continuing entity, the nation, composed of the totality of its body politic, which is responsible for its past and present acts and on whom the duty falls to rectify its faults and keep its engagements. ALFRED M. ROSSUM

Official Asserts Pinochet Could Run In an Open Election for Presidency

gusto Pinochet, who was defeated last week in a ballot on extending his rule, could run as a candidate in an open presidential election, ac-cording to his defense minister.

"He could be a candidate as long as he stepped down before the election was called," Admiral Patricio Carvajal said Monday. Controversy over whether the

general, in power since a 1973 coup, could run again has been stirred by a series of newspaper advertisements expressing support for his future candidacy. General Pinochet lost a plebi-

scite last Wednesday to extend his rule for eight more years by 53 to 43 percent, in the first direct vote on the leadership since he toppled the elected Marxist president, Salvador Allende.

The constitution says the general ment are seeking to create a climate owning elite and can remain in the presidency until of confrontation," said the Chris- ness community,

SANTIAGO — President Au-down, he must hold a competitive tian Democratic Party vice president, Andres Zaldivar. Opponents want to reform the presidential election in December constitution, approved in a 1980 of next year to coincide with voting plebiscite the opposition said was fraudulent, to make it conform to for congress.

General Pinochet's opponents said the 72-year-old president is barred from running again in a fu-ture election, But Admiral Carvajal said lawyers told him the general could be a candidate providing he left the presidency before calling the vote

Meanwhile, the government's of-ficial spokesman said on Monday it was too early for any decision. Opponents accuse the govern-

ment of attempting to ignore the significance of the poll, in which nearly four million of Chile's 7.2

What put the Sir in Sir Walter Scott?

It has been commonly assumed that Sir Walter Scott was given his knighthood for services to literature.

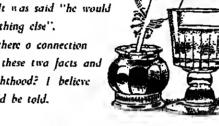

However, there is a school of thought which is puzzled by his canstant publicising and praising of The Glenliver single malt whisky. It is mentioned frequently in his writings.

The Glenlivet* was also the Manarch of that time's favourite whisky. It was said "he would drink nothing clse".

The Glenlivet 12 years old single malt whisky.

defeat.

"slam their doors in Botha's face and to intensify all measures for the isolation of Pretoria."

Little wonder they don't build cars like they used to. Building a pen is difficult enough.

Oh, the elegant lines of the 1925 Hispaoo Suiza. Oh, the elegant lines of the 1927 -Parker Duofold.

The car may no looger he available but happily the peo is making a welcome return.

We have loog yearned to recreate this favourite Parker desigo. And our centenary has provided a suitable excuse.

Like today's top cars the Parker Duofold Centenoial hoasts working parts that are 'state-of-the-art.'

But uolike them, it hoasts workmaoship that is somewhat old fashioned.

Rather thao mould the cap and harrel 'en masse,' we roachine them as we did in the old days, from a solid block.

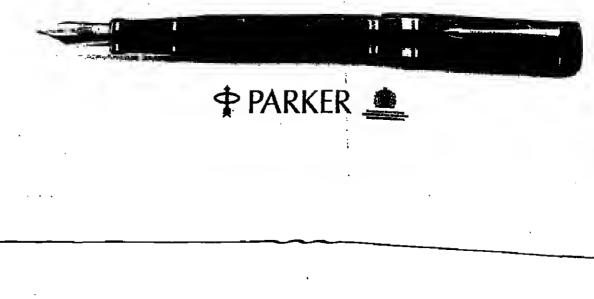

Rather than cut the nih from some modern metal, we stay true to gold.

Rather than slit the nih on some oew faogled contraptioo, we still do the joh hy hand, using a blade no thicker thao a human hair.

And jost as Hispaoo Suiza road tested its cars thoroughly after manufacture, we put our peos through their paces.

Upon completioo, each Duofold Centennial is examined by a white gloved inspector. If deeroed perfect, it is filled, written with and cleaned before heing released for sale.

It is an exhausting way to produce a pen. But, as with the Hispano Suiza, the looks and handling provide ample reward.

MARKET BLUES -- Two Taipei investors weeping Tuesday while others chant songs at a protest demonstration aimed at persuading Lee Huan, chairman of the ruling Kuomintang Party, to take action against slipping stock prices. The market decline was set off by a government decision in late September to impose a tax on stock profits. The tax plan has since been modified.

4 Opposition Groups in India Form A New Party to Challenge Gandhi

By Barbara Crossette New York Times Service NEW DELHI - A new opposi-

india, the amalgamation of four often-squabbling organizations whose leaders believe that in unity they can end the Nehru-Gandhi political dynasty. Many politicians and political - columnists say that if the new par--ty, which groups several powerful

and ambitious men in a single organization, is able to remain unified, it will pose a difficult challenge to Prime Minister Rajiv Gandhi and his Congress (I) Party. Constitu--tionally, a national election must be held before the end of 1989.

Significantly, the party was formally inaugurated in the southern state of Karnataka on the birthday of - and in a town named for -Jayaprakash Narayan, who in 1977 forged an opposition alliance that

jiv Gandhi's Congress (I) Party in northern India and his bodyguard . were slain Tuesday by gunmen who the police said probably were Sikh militants. Bhagwan Dass, the party

defeated Indira Gandhi. Mr. Nar-syan died in 1979. Opposition to Mr. Gandhi is strong in the south The new organization, to be called Janata Dal, or People's Par-

ty, chose as its president Vishwan-ath Pratap Singh, a former finance and then defense minister who re-signed from Mr. Gandhi's cabinet, formed a party of his own, the Jan Morcha, and was elected to Parliament on an anti-Gandhi, anti-cor-

ruption campaign. The newly formed People's Party also has absorbed the Lok Dal organization of Devi Lal, chief minister of Haryana state; the Janata Party of Ramakrishna Hegde and Chandra Shekar, and the Congress (S) Party, a breakaway group that

opposes Mr. Gandhi's party. While awaiting an election date, the People's Party will have to decide which of its leaders would be prime minister should it come to

jab, and his bodyguard were shot by at least three gunmen at Mr. Dass's grain shop in the town of Jaito.

The police in Chandigarh said busy market area by car or motor scooter. The town's shopkeepers of reports about commuted vice president in the state of Pun- closed down in protest.

sion that Beijing would provide a refuge for Mr. Pol Pot and other well-known Khmer Rouge leaders. "There is general agreement that Pol Pot and those close to him must leave before we can form a new when the nation appears to be looking for strong leadership. Many opposition politicians and

voters appear to favor Mr. Hegde, a former chief minister of Karnataka who resigned earlier this year when it was discovered that telephonetapping was widespread in his state. The wiretapping scandal has not significantly hurt Mr. Hegde, however, since it is common knowl-

edge that the activity takes place control. everywhere in India. Diplo Infighting is seen as the opposition's greatest liability.

. The People's Party hopes to serve as a nucleus of an opposition powerful ethnic regional parties, the Telugn Desam, which is in power in Andhra Pradesh state under the former film star Nadamuri Tar-

aka Rama Rao, and the Dravidian Progressive Party, which is the strongest challenger in state elec-tions due in Tamil Nado before the end of January. The prime minister, who is sur-

rounded by powerful, usually un-elected advisers, is regarded by many influential Indians to be out anagement.

coalition in Phnom Penh," said Son Sann, leader of the Khmer People's National Liberation Front, another Cambodian guerrilla group.

ARTS / LEISURE

London's New 'Ring' **Spotlights the Singers**

By Henry Pleasants

LONDON — The Royal Opera has launched a new "Ring" cycle, produced by the Russian stage director, Yuri Lyubimov, and conducted by Bernard Haitink, the cycle to be completed, with a new production a year, in 1991.

One's immediate reaction to the inaugural "Das Rheingold" is to welcome a production conspicu-ously less burdened with political, sociological, psychiatric and philosophical ballast than has been true of more or less recent stagings at Covent Garden hy Götz Friedrich and at Bayrenth by Patrice Chereau

and Harry Kupfer. It is economical, designed by Paul Hernon for touring when the company must leave Covent Garden to the rebuilders and remodelers in 1993. There are, accordingly, no sets or landscapes. All is centered and sometimes played out on a hydraulically operated metal disc, 10 feet (three meters) in diameter, that revolves, rises, fails and tilts. In its center is an opening, rather too closely

resembling a manhole, through which entrances and exits are made, visually effective when it comes to descents to and ascents from Nibelheim. It inspired one headline writer, inevitably, to introduce a review with "Yuri's Slip of the Disc." Others saw in it a reference to CDs and a hint of future recordings. All have agreed that it serves wonderfully well, when tilted, as the rock over which Alberich clambers in slippery pursuit of the evening-gown-clad Rhine maidens, a scene which prompted Wag-oer to the outrageous onomatoposic alliteration of "garstig glatter, glitschriger Glimmer! Wie gleit' ich

All else is hlack background, relieved by Robert Bryan's ingenious and imaginative lighting, a black screen opening like the shutters of a camera from time to time to reveal the Nibelungen at their anvils or the Rhine maidens mourning the loss of their

If the simplicity of the production is to be welcomed for the absence of pretentious interpretive obtrusion, it still suffers from Lyubimov's acceptance of the oow fashionable notion of cutting Wag-ner's divinities down to size, as reflected in Wotan's appearance in a frock coat, suggesting a Victorian intrepreneur or even a Kentucky colonel, as in the Chereau production and on film. As with Chereau, a Wotan, thus costumed, carrying a spear is plain silly. Not much of a spear, either. One critic, obviously fresh from watching the Olympics on television, was reminded of Fatima Whitbread's javelin. She took not gold, but silver.

This leveling approach to Wagner's heroes and villains (they are mostly one and the same) has the fatal effect of robbing the works of their most distinctive and compelling asset: grandeur and spa-ciousness. Deprived of a visible Valhalla, a sense or impression of prehistoric antiquity and a sense of vernal Rhineland, the works emerge not as drama on the grandest scale ever conceived by a composer, but with something closer, as with the case of Chereau, to a sitcon. I referred to the Chercau production at the time in these pages as "Dallas' on the Rhine." This Lyubimov staging has some of the same failing. What the simplicity and a necessarily contracted acting space have in their favor is the way they serve the singers, bringing them forward where, with Hait-

James Morris as Wotan and Kenneth Riegel as Loge in the Royal Opera's new "Rheingold."

nik's solicitous orchestra, they are always heard to the best advantage. They are worth hearing, and especially in the case of the American Kenneth Riegel's superbly volatile and athletic Loge, worth seeing, too.

Another American, making a belated Covent Garden debut, is James Morris as Wotan. His perfor-mance in this role has been heard and admired in other opera houses. If, in this production, he seems slightly wanting in stature and presence, it is proba-hly the fault of Lyubimov in outfitting him with that solecistic frock coat and anachronistic spear.

There is a superbly acted and superbly sung Al-berich from Eckehard Wlaschiha, a splendidly voiced Fricka from Heiga Demesch and a delightful Freia from Nancy Gustafson, another American, vividly remembered for her Karya Kabanova at Glyndebourne last summer. All in all, I cannot remember hearing "Das Rheingold" better sung. (Additional performances Oct. 11 and 13).

Henry Pleasants is a London-based author and critic who specializes in music and opera.

Writer Foreman **Runs the Risk** Of Man's Vanity

By Laurie Winter New York Times Service TEW YORK - Richard Fore-N EW YORK - Internet of the second se in discussing his work - a body of plays that, over the years since he founded the Ontological-Hysteric

Theater in 1968, has moved and perplexed audiences both in the United States and abroad. "What Did He See?," which be-

gan previews Tuesday at the New York Public's Shiva Theater, unfolds in the fractured, hallucinatory and poetic language that Foreman has always employed. At the same time it addresses, perhaps more di-rectly than ever before, the 51-yearold playwright's profoundly per-sonal and intellectual struggles, including a deep ambivalence about the cult of the artist in America and about his own need to create and be recognized. "Much of the advanced art in

this century is striving to touch a spiritual truth, and much of it has been produced by people who aren't so excellent as human beings," mused Foreman, who, as be often does, also directed and designed his new work. "I'm ambivalent because it's made by people including myself - who have no right, really, to speak about such things and to express such things. Maybe we shouldn't be making art. maybe there's too much glamour to art - glamour that invariably cor-

rupts. Maybe art is not the way to "What Did He See?" centers on

a man called Paul, or Philip (Will Patton), who Foreman says is troubled by similar problems of responsibility and calling. Paul, or Philip, wanders about in a typically disori-enting Foreman landscape, on a set that the playwright says might suggest, at various moments, a play-

pen, a deserted palazzo in Venice, or St. Jerome's study. Agitated and on some sort of a spiritual quest, Paul claims that

aspects have taken me to another level of reality," hut he is unable to perform the act of transcendence that he dreams of. Unfortunately, he also finds "the normal way of life" is no longer possible for him, a position that seems to irritate the two other characters (played by Lili Taylor and Rocco Sisto), who are

sing and dance with and generally mate Paul, or Philip.

In a recent interview at the Public Theater, Foreman, a short, sen-

tle and slightly disheveled man, was dressed in black, from his polo shirt to his sneakers. He described "What Did He Sec?" as a "transitional play."

"I'm using less scenery now," he said. "My plays have always been very technical and I want to simplify all that. At the same time, I'm striving for a more mythic quality It has to do with getting old. When I look back on my earlier work now, I know I didn't approve of the world. I felt like a misfit. I really tried to start from scratch, to relearn to draw the letter A. And I _ pruned my work of everything except my learning how to make the letters in my own way, so my work was pure and austere. But as the years go by, what I perhaps deh-dedly think I've tanght myself is a more humanistic, lyrical kind of

writing that is more accessible to more people." Some of Foreman's work has

garnered large audiences (the musi-cal "Dr. Selavy's Magic Theater was an off-Broadway hit in 1973), and he has inspired generally pos-tive critical attention. Still, For-man has never cast off the manufer of the avant-garde, even as his work traveled from a small loft in SoHo to Lincoln Center (where he directed Joseph Papp's "Three Penny Opera" in 1976) to Papp's Public Theater. The playwright says that now his plays "are perfectly clear to anyone who has any familiarity with the strategies of contemporary poctry.

Even so, "What Did He See?" explores some fairly rarefied territory. "My plays have always been about having one's head in the clouds while one's feet are planted firmly in the soil," Foreman said. "Maybe a human being cannot

perform a gesture that does not have a little bit of corruption built in, And I'm oot so sure I shouldn't be off in some monastery somewhere rather than making plays which are involved with a lot of things, but which also involve ego gratification. Wanting to be a famous artist. There's always a little voice in the back of my head warning me about all of the vanity in-volved in any human enterprise. And that's one of the problems that the character in this play is in-

volved in."

Tepid 'Tempest' Ends Peter Hall's National Reign

By Sheridan Morley International Herald Tribune LONDON — Sir Peter Hall ends his management of the National Theatre,

as he began it in 1974, with a revival of "The Tempest." But where we had the then melodic majesty of John Gielgud's elegiac Prospero, we now have the arid academic Michael Bryant performance, one of faultless line-readings and superb intelligence · but fatally short on dramatic intensity.

Someone somewhere seems to have dedicated 1988 as the year of "The Tempest." Already we have John Wood as a Stratford Prospero, the Japanese at Edinhurgh, and next week we get Max von Sydow in the role for Jonathan Miller at the Old Vic. Logically Hall's "Tempest" should have been the great climax of and farewell to his years at the National, but in fact it's an oddly low-key and uninvolving affair, per-haps better seen to the original studio conditions than moved into the vast open

spaces of the Olivier Stage. This is minimalist late-Shakespeare, stripped literally to the bone - Ariel even

ence or a company honed to that kind of comic tradition, "Dry Rot" just seems a desperately dated.

Nicholas Hytner's production of "Measure for Measure," coming into the Barbican from Stratford-upon-Avon, is (like the recent Jonathan Miller "Taming of the Shrew" there) a sharp reminder of how much better the current Royal Shakespeare Company is when working with constaff directors.

True, the star here is Hytner: His RSC debut has a flamboyant operatic confidence, relocating one of Shakespeare's most difficult morality plays in a moderndress Vienna. It owes as much to the movseems from time to time to be in a play ies of Rainer Werner Fassbinder as to the brilliantly weird settings of Mark Thompson with their curious amalgam of halffinished Doric pillars and outdoor plumb-

In such an inventive, campy, smoky

der statesman, Roger Allam's regretful duke, Josette Simou's fiery Isabella and John Sharpnel's neo-Nazi Angelo are all evidence of the ongoing strength of RSC character acting when it is allowed to flourish away from overly academic readings of the text Hytner is beginning to be tipped as a prospective leader of the RSC, and if so it is going to return to being an actors' as well as a directors' company. Alex Jennings'

wonderfully campy, over-the-top Lucio is not a performance that would have been encouraged by the more cerebral of Hytner's predecessors, but it does bring a shadowy area of the play to flamboyant

life, while Phil Daniels as Pompey also

entirely built around his own character. All in all this is fair "Measure," not perhaps as iotellectually coherent as some, also on hand to question, impel, but possessed of a rare theatrical energy and spirit.

company.

an's Vanit Far East Firms to Study **How California Sets Pace** By RICHARD W. STEVENSON

New York Times Service

OS ANGELES — Bozell, Jacobs, Kenyon & Eckbardt's branch office here has been working with Chrysler Corp. for several years to study what makes Califor-nians tick in order to sell more cars within the state and eventually elsewhere, since what is hot in La Jolla will one day find its way to Peoria.

Now the advertising agency is about to try its hand at explain-ing California to another group: Asian companies interested in cracking the U.S. market. Executives from Bozell, Jacobs have

scheduled seminars in Los Angeles and Tokyo. "We have a good sense of how attitudes differ from California to the rest of the country and what the California mind-set is," said Rence W. Fraser, execu-

tive vice president and general Angeles of the agency's Los Angeles office. As a birthplace of trends and tastes, California has be-California,

birthplace of trends come a virtual laboratory for and tastes, is a virtual laboratory for testing products and gauging what consumers in other

states might want in a few testing products. years. That Californians are

somehow different from other Americans has become an article of marketing faith.

But in what ways are they different? Bozell, Jacobs found that California, not surprisingly, has a relatively high proportion of "inner directed" people and "achievers," who like to run things

the transfer of the second sec Check in the set of the country will be when Chifornia, in now Ms. France, and 21 percent of the U.S. population. But by the year 2000, the rest of the country will be where California is now, Ms. Fraser said. The rise of the inner-directed consumer coincides with the iver, or way to decime of decline of the "belonger," the person most easily influenced by

HE QUINTESSENTIAL Californians are those who are both inner directed and achievers; that is, they march to the beat of their own drummers but are willing and able to - pay for the best percussionists around.

Madrenza They "are not as bothered by where products come from as other parts of the country are," Ms. Fraser said. That certainly is not news to Toyota or Honda or Hyundai, or ANTINE

even to Detroit, which has been struggling for a decade to win back customers it has lost to the imports. But for smaller " companies in Japan, South Korea, Taiwan, Singapore and other emerging trading partners, it might not be so obvious. That, at least, is the thinking at Bozell, Jacobs, which is trying to drum up new business from Asian companies entering the United States market and is promoting California as the logical point of entry. ----

Foote, Cone & Belding Pty., the Australian subsidiary of Foote, Cone & Belding Communications of Chicago, has ac-quired Forbes Mactie Hansen Pty., which is based in Sydney. The purchase price was not disclosed

Publicis-FCB, a new European alliance between Foote, Cone & Belding Communications and Publicis SA of Paris, has increased its stronghold in Spain to almost \$90 million in billings by buying Arge, one of the country's leading agency networks. Kohlberg At American Brands, Courtship II **Calls Off Unruffled Conglomerate Tries to Shut Door on Suitors Store Bid** By Alison Leigh Cowan New York Times Service OLD GREENWICH, Conoecticut - William J. Alley, chairman of American Brands

Kroger Still Has Hafts' Attention Compiled by Our Staff From Dispatches

NEW YORK — Kohlberg, Kra-vis, Roberts & Co. on Tuesday withdrew its sweetened, \$5.03 billion offer for Kroger Co. and indi-cated that it would not re-enter the battle for the biggest supermarket chain in the United States. Kroger shares fell \$2.50 to

\$55.125 on the New York Stock Exchange as prospects of a bidding battle waned. However, Robert Haft, who with his father controls Dart Group Corp. - which launched the tussle for Kroger last month — said the Hafts were still interested in the retailer.

Kohlberg, Kravis withdrew both its sweetened offer of \$64 a share in cash and securities and an earlier, alternative proposal worth \$61.50 a share. The move surprised some analysis; the Wall Street corporatebuyout specialist has a reputation for seeing through its bids. Robert Haft's brief statement

said that he remains interested in working with Kroger "to strengthen the company and enhance their restructuring by providing addi-

tional equity." The Hafts, well known as corpo-rate raiders, last week offered to help Kroger fight the Kohlberg bid by proposing to assist the restructuring that has arrany a summer and a summer The supermarket giant has also said that it would sell off various assets as part of a \$4.6 billion defensive plan.

Kohlberg, Kravis said that it sent letter to Kroger directors stating that "We have decided to respect the board's position and withdraw our proposals to acquire the com-

pany. The firm's partners said that they did not anticipate making forther proposals to acquire Kroger, but they reserved the right to any future action, including the purchase or sale of its securities.

While we are perplexed the board found our proposal to ac-quire the company for \$64 per share, or 28 times earnings, to be inadequate, we were not even asked if we were in a position to improve our offer," the letter said.

Kroger's board had also rejected the Dart Group offer of \$43 in cash and securities having a trading val-

for each Kroge

William Alley: "I'm not going to sit around here worrying about speculation of a takeover."

Beers Consolidated Mines Ltd. The investigation was the first sign of official concern in South Africa that Anglo American, al-ready the world's biggest gold pro-ducer, could increase its domi-naoce of the couotry's gold production. Gold Fields is the world's second-biggest gold miner. Gold Fields stock fell 16 pence to 1.271 pence a share on the Lon-don Stock Exchange on Tuesday. There was speculation of govern-ment objections to the Minorco bid, which offers cash and stock totaling £13.06 per share. Minorco already owns abont 29 percent of Gold Fields, and its bid values the entire company at £2.9 ment has warned that Consolidated Gold Fields' subsidiary Remison Gold Fields would be forced to sell its extensive gold holdings in that country if South African interests

values the entire company at £2.9 billion. The South African Competitioo

Board said it was examining whether an acquisition by Anglo American Corp. and De Beers Consolidated Mines of Gold Fields of South Africa" has been attempted "and the nature and extent of the controlling interest held and acquired."

If the bid were to succeed, Min-orco would gain control of Consoli-dated Gold Fields' 38 percent stake in Gold Fields of South Africa. But Minorco has said it plans to sell that holding. "This is in line with our policy of

investigating mergers and acquisi-tions outside our borders that could have an effect inside South Africa," a Competition Board official said. Anglo American and the South

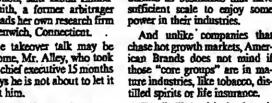

African government have had wary relations. The founding family of Anglo American, the Oppenheimers, have backed the opposition Progressive Federal Party and are

Yen Surges Compiled by Our Staff From Da NEW YORK - The dollar fell to a three-month low against the

Japanese yen Tuesday, as indicators of an economic slowdown in the United States sourced investor sentiment. The U.S. currency weakened slightly against most other currencies, though it rose

against the Deutsche mark. "You're hard-pressed to find any reasons to buy dollars now," said Earl Johnson, vice president of for-cign exchange at Harris Bank in Chicago, "The rationale for buying

dollars has faded." He cited lower-than-expected growth in U.S. employment an-nounced last week, and expectations that figures due Thursday wouldshow a widening of the U.S. trade deficit for August. Analysts expect a deficit of \$11 billion to

Oct. 11

The news of Mr. Bouygues's resignation, which had been expected, followed two weeks of heavy trading in shares of Bouygues SA, which holds a 25 percent stake in TF1.

On Tuesday, Bouygues shares fell slightly on the Paris Bourse, closing at 613 francs (\$96.90) a share, against 629 francs Monday. Stock market sources said that an unidentified American investor was believed to have acquired 100,000 of the quarter of a million shares that changed hands on Mon-day. On Tuesday, 44,000 Bouygues shares were traded.

Robert Maxwell, the chairm of Maxwell Communication Corp. who disclosed last week that he had bought 5 percent of Bouygues, said in a radio interview on Tnesday that he was "not operating against Bouygues." Mr. Maxwell has a 13 percent stake in TF1.

interest in the television network. But Mr. Bouygues described Mr. Maxwell's move as being "on his

Meanwhile, Bernard Tapie, a French industrialist, said that he

Singapore Press Holdings To Spin Off Times Unit

SINGAPORE - Singapore Press Holdings Ltd. proposed Tues-day to spin off its Times Publishing Ltd. subsidiary into a separate

Press Holdings' core activities will remain the printing, publishing and distribution of seven daily and five Sunday newspapers. It publishes in English, Chinese and Malay. The new company would concentrate on commercial printing and

book publishing. It would seek a listing on the Stock Exchange of

Singapore, a company statement said. The spinoff proposal comes four years after the government ordered the merger of three newspaper groups — Times Publishing Bhd, Straits Times Press (1975) and Singapore News & Publications

Ltd. — to form Singapore Press Holdings. The proposal offers Press Holdings' shareholders one Times Publishing share for every two Press Holdings shares. ng share for every two Press Holdings shares.

Times Publishing's issued share capital, at 121.63 million Singa-pore dollars (\$59.7 million), will be half Press Holdings' issued share capital

EC to Study Japan Construction Obstacles

Agence France-Presse

BRUSSELS - European Community experts and western Europe's biggest construction concerns are to launch a review of alleged obstacies that could prevent the companies from winning contracts for the buge Japanese

A spokeswoman for the commission, the executive of the community, said that it will examine "what eral weeks, she said.

The announcement came a day after the EC commissioner for external relations, Willy de Clerco, met with executives from eight Enropean civil engineering firms to This was quickly resolved by a bi-

According to some estimates. Japan will spend up to \$450 billion over the next 15 years to improve such sectors as transport, housing, hospitals and leisure facilities.

"The commission wants to enpublic-works program, the Europe-an Commission said Tuesday. sure that European firms have ac-cess to these contracts," Mr. de cess to these contracts," Mr. de Clercq said in a statement Tuesday.

Kansai International Airport Co. announced earlier this year could be proposed to the Japanese that it had selected a design by the authorities" about removing the French company, Acroports de hurdles. The review would take sev Paris, for the passenger terminal for a new airport in Osaka Bay, a 1

trillion yen (\$7.5 billion) project. The choice became a contentious issue because of U.S. efforts to enter the lucrative Japanese market.

discuss their prospects for a fair lateral agreement between Japan share of the program. and the United States, which in turn drew protests from Europe. Aéroports de Paris was among companies at the Tuesday meeting. Others were Ballast Nedam of the Netherlands; Bilfinger and Berger of West Germany; Costain Group, Arup & Partners and Trafalgan House of Britain: Dumez SA of France: and SBBM of Belgium. They asked the commission to maintain pressure on the Japanese government to improve European

access to the Japanese construction market, the spokeswoman said. Of special concern, she said, were delays and alleged blocking of licences allowing EC businesses to... operate in Japan: fair bidding for

subcontract work; and regulations crimping the European role in joint ventures with Japanese companies."

Lanvin Is Seeking Buyers

Reuters esis in the Rodier and Korrigan PARIS - Lanvin, France's last privately owned fashion and perknitwear labels. Mr. Poniatowski would not re-

fume house, is seeking buyers, sig-naling an end to 98 years of independence, R company executive said Tuesday. perfumes, men's luxnry clothes and women's ready-to-wear and made-to-measure fashions.

Alexandre Poniatowski, general manager of the Lanvin men's divi-sion, said that France's Prouvost SA textile concern was one of sev-eral potential buyers for the familyowned concern. Prouvost confirmed it was interested.

which operators continue to have in the North Sea," he said. "I) represents a tremendous opportunity for the offshore fabrication industry to win extremely valuable orders.

Miller is the 17th, and largest, offshore project approved this year and is one of the biggest develop-ments since Britain's giant mature North Sea fields such as Brent and Ninian peaked several years ago.

The petroleum industry has been awaiting approval of the Miller project. Mr. Morrison said it Iol-lowed a gas sales agreement that BP and its partners entered with the North of Scotland Hydro-Elec-tricity Board.

It is the first time full gas optput from RD offshore field will be delivered to a customer other than British Gas PLC. Mr. Morrison said that with Miller, BP would take account of lessons learned from the

Asking EC Aid Agence France-Presse

BRUSSELS - European television makers have asked the European Community to probe imports of small television sets from China and Hong Kong that are allegedly being sold at unfairly low prices, in-dustry sources said Tuesday.

"We hope tha) the European Commission will make a decision on the complaint by the year-end," said a spokesman at the British Radio Equipment Manufacturers' Association.

Profit margins and jobs in Europe are threatened by the influx of small television sets that are chiefly made in China and sen) in Hong Kong for finishing.

The European Association of Consumer Electronics Man-ufacturers, which filed the suit, said Chinese-made televisions routed through Hong Kong could account for more than 5 percent of the 16 million unit EC market this year.

BRANDS: Unruffled U.S. Conglomerate Tries to Shut Door on Its Suitors

but it was being squeezed by the consolidation of distributors. Since suppliers of alcoholie beverages are generally barred by law from owning U.S. retail stores or distributors. American Brands had

one choice: get bigger or get out. In May 1987, it bought the liquor business from National Distillers &

Chemicals Corp., now Quantum Chemical, for \$584 million. Naubnal Distillers, whose brands in-eluded DeKuyper's Peachbree schnapps and Gilbey's gin, wanted to focus on its ebernicals business.

Now, without any major overhaul on American Brands' part, both companies' brands are getting more attention from distributors. "If they get another three or four major brands, as they clearly in-tend to do, they will have arrived."

said Carl Martignetti, co-owner of the Carolina Wine Co., a large Massachusetts distributor. Clearly, Mr. Alley would rather make more of what he has, bowev-

er, than spend heavily to develop new products. American Brands spent a mere \$16 million - threetenths of one percent of sales - on research and development last year, compared with the seven-tenths of DDe percent spent by other consumer products companies tracked by the Standard & Poor's Corp. Compustat Service. As a result, the company aims

for line extensions rather than bit introduced a blueberry-flavored schnapps. It also brought out up-dated versions of some of its popu-139,1 1723,4 104,6 1725,2 1420,20 420,00 1837,250 5279,54 111,75 112,54 354,25 01,25 113,21 113,21 lar cigarettes, such as Pall Mall Red filters, as well as two new brands. Spendiog on advertising bas been rising as a percentage of sales. While total domestic advertising expenditures on tobacco products shrank 15 percent last year, to \$621 million, American Brands' American Tobacco division increased spending by 5 percent, according to a survey by Adventising Age. The upshot was that market

1.73 8.26 10.48 10.29 10.38 10.29 10.36 10.29 10.36 10.29 10.36 10.29 10.36 10.29 10.36 10.29 10.36 10.29 10.36 10.29 10.20 10 share reached 7.2 percent by midyear, up two-tenths of one percent from the year before, according to John C. Maxwell Jr., an analyst at Wheat, First Securities. Still, American Brands picks its

shots. Since smokers are unlikely to switch to an unfiltered cigarette, the company does oot promote its Pall Mall unfiltered brand.

Such an ability to know when to be hold back has made the compaoy rich in cash but has occasionally made it ill-suited for some forays into consumer products that re-quire heavy support, such as cook-ics and skin lotions. 64.50* 211,10 191,50 171,00 171,00 171,00 175,50 99,00 207,50 260,00 1849,50

Mr. Alley has been trying to un-wind some of those early mis-matches, and the effort bas not made him popular among former subordinates.

American Brands' Diverse Product Line Sales in the first half of 1988 tittaled \$3.58 billion, excluding escise (ax Specialty 18.4% Optics 5.0% Tobacco 35.7% Golf 4.9% Office Products 11_2%

Nonetheless, the company argues that the economies of scale that are driving it to bigness in was an appropriate way to opersome areas do not apply to Leate." Bow's proposed merger.

Even with the stepped-up divesuture program, American Brands has found it difficult to shake its past as an unfocused conglomerate. It still makes Titleist golf balls and operates a chain of eyeglass stores

outside of its core group. Then there is another \$1.1 billion of sales from "specialty businesses" that include porcelain lamp bases, printing presses and vending machines that sell tobacco products.

They earn a lackluster 2.9 percent in operating margins, although the distribution outlets appear to subsidize the sale of cigarettes.

Ell only made things worse. American Brands ultimately kept one Ell unit that makes tool chests, another that makes plumbing kits and a third that makes kitchen cab-

It added those to its Master Lock padlock business and anointed it as new "emerging core group" called "hardware and home improvement."

In addition, the company has another emerging core group it bad previously identified in office products. Even so, the amalgam is not shaking up the trade.

"When you think of padlocks, you think of Master Padlocks," said George Thompson, a Pruden-tial-Bache Securities Inc. analyst. don't seem to be there? It Thomas C. Have president American Brand-

INTERNATIONAL HERALD TRIBUNE, WEDNESDAY, OCTOBER 12, 1988

Falling Costs

Reulers

TAIPEI - Taiwan physical gold

imports have soared more than ten-

In the first nine months of 1987,

The official antibuted the rise to a

surge in private-sector gold imports

after the removal of a 5 percent sales

gold bars and 1.54 tons of coins.

CURRENCY MARKETS

DOLLAR: U.S. Currency Lower as Yen Advances

(Continued from first finance page)

\$11.5 billion, up from the \$9.5 bil-bon gap recorded for July.

This boosted the yea. The dollar tumbled to 131.075 yea at the close, from 132.150 at Monday's close, extending the sharp decline seen in trading Monday that continued on Asian markets Tuesday and spilled over into Europe and the United States.

However, the dollar firmed close in London at 131.05 yen, slightly against the mark to close at down from 132.15 at Monday's 1.8553 DM from Monday's 1.8540. close. The U.S. currency also eased But it declined against the British to 1.8525 D pound, which extended Monday's 1.8560 DM, gains to close at \$1.7150 from \$1.7125.

The U.S. unit also slipped to 1.5723 Swiss francs from 1.5748 and to 6.3185 French francs from 6.3243

Meanwhile, the price of gold also fell after a recent rally. December ity Exchange lost \$4.30 to close al \$408.40 after London bullion was the standard of the standard of the standard the standard of the standard of the standard the standard of the stand set at \$407.25 an ounce in the afternoon.

The dollar fell more than 1 yen to

to 1.8525 Deutsche marks from

Monday's \$1.7125, and advanced to 70.4 on its trade-weighted index from 76.3 on Monday. The dollar also fell against the Swiss franc, to 1.5705 from 1.5755, and the French franc, to 6.3055

"Things perked up a little to-day," said Geoff Earnshaw, senior foreign exchange manager at Na-tional Westminster Bank, "but the main focus now is on the trade rates would likely be raised again if

that the deficit would prove even would aggravate Britain's already the dollar ahead of the U.S. trade larger than forecast may have con- worrying inflation outlook. tributed to the dollar's weak tone.

The main reason for the dollar's fall, though, was a flurry of institu-tional selling from Tokyo, they Gold Buying This was prompted by Friday's

news of the lower-than-expected U.S. jobs growth last month and was particularly marked against the yen, which has been nervously easier during Emperor Hirohito's

fold this year, a Finance Ministry illness, they said. official disclosed Tuesday. Dealers said the jump reflected lower world gold prices and n cut in sales tax Dealers said they doubted the dollar would be allowed much movement ahead of the November and added that the trend would U.S. presidential election. "If it continue as funds shift away from

goes anywhere it will go down," said one trader, noting the apparthe lumbling stock market. The country imported 291.6 met-nc tons of gold worth almost \$4.6 billion in the first nine months of The British pound, too, contin-ued to climb against the dollar. It ent determination of central banks ended at \$1.7180, well ahead of to prevent any run-up to 1.89 DM. 1988, said the official, who de-clined to be named. Physical im-Meanwhile, sterling's continued strength attracted Bank of England intervention, dealers said. "With high U.K. interest rates and uncerports comprised 289.04 metric tons of gold bars worth \$4.25 billion and tainty surrounding the dollar, it 2.56 tons of coins valued at \$345 seems sterling is likely to stay firm," said Mr. Earnshaw. million, he said in an interview. imports were 23.9 metric tons of

Dealers said the strength derived from the remark on Sunday by the gures." sterling eased sharply. They said Dealers said that market rumors that any weakness in the pound

tax on gold trading on July 1. Dealers said that private-sector imports, mainly by jewelry shops and trading companies, have been rising since mid-September due to (Reuters, UPI) weaker prices.

"The private sector is expected to import more gold in the final quarter of 1988 because of rising demand in Taiwan," said Judy Yeh, assistant vice president of the China Trust Precious Metals Co. The dealers said that imports could reach about 325 metric tons

for the whole of 1988. Ms. Yeh said that a growing number of stock investors were switching to gold due to a sharp fall in share prices following the gov-ernment's decision to impose a tax on capital gains from stock sales in January 1989.

About 65 percent of the imports were made by the Central Bank and the rest by the private sector. The Central Bank bas not

bought gold from the United States since late July, after Washington complained that the imports were being made to artificially reduce

Japanese Trade Surplus Is Expected to Narrow

TOKYO - The Japanese merchandise trade

surplus is likely to narrow by about 9 percent in September on a sharp rise in imports, econo-Vickers. mists said Tuesday. The figures are to be released Thursday, the

same day as U.S. August trade figures are due.

Slow imports of crude oil had led many economists to believe that Japan's trade surplus would expand for the month, but an unexpected resurgence of Japanese purchases of over-seas goods has dispelled those worries.

"Continued rapid import growth is keeping the trade surplus from exploding," said David Gerstenhaber, senior economist at Morgan Stanley International Ltd.

In a recent poll of economists, forecasts for Japan's unadjusted surplus in September aver-aged \$6.8 hillion, against \$7.42 hillion a year earlier. The predictions ranged from \$6.0 billion to \$7.6 billion.

A narrowing of the September trade surplus would mark the 15th drop in the past 16 months

"Growth in manufactured imports is making up for the drop in oil huving," said Matthew Berlow, an economist at Ciucorp Scrimgeour

He added that the decline in the trade balance "would be even more, but exports are quite strong."

Japanese oil purchases have been declining in reaction to heavy huying before August, when an increased oil import tax went into effect. Purchases of crude oil and other fuels by Japan had been heavy, accounting for 22.6 percent of overall imports in the first half of the

year. For the first 20 days of September, according to figures announced on Oct. 5. Japan's oil imports plunged 35.9 percent from a year earli-

CT. Despite that drop, overall imports rose 31.1 percent, surpassing a 27 percent rise in imports

A Finance Ministry official has said that if oil imports and crude prices were steady in September, imports would have climbed an

additional five or six percentage points.

Although interim figures are not comprehen-sive, the official said, overall imports appear to have jumped as Japanese companies boosted purchases from their overseas subsidiaries.

Page 15

Imports of nonferrous metal products, textiles and food appeared to be particularly brish, he added.

Japan's trade surplus for the first 20 days of September shrank to \$3.46 billion, from \$4.41 billion a year earlier.

"We were totally confused by the sharp increase in imports" in the 20-day period, one economist said, "especially after imports were up only 12 percent for the first 10 days of the month.

An economist at the Nomura Research Instiiute, Hidehiro Iwaki, said, "September exports are likely to be up around 12 percent, but the real difficulty is trying to estimate imports."

The trade figures could be a surprise when the data are in for the whole month, he said. "The first 20 days of the month usually

account for only about 50 percent of a month's trade." he said

BANK: Worldwide Group Charged By U.S. With Laundering Drug Cash

(Continued from page 1) has entered the U.S. market in re-

Cent years. U.S. undercover agents penetrated the money laundering operation to gather evidence, customs offi-cials said. They said that the agents pretended to set up their own moncy laundering operation and were ported. approached by members of the alleged ring, who offered their ser-VICES

Twenty customs agents took part in the investigation, which also m-volved the Federal Bureau of Investigation and the Internal Revenue Service,

- British and French drug enforcement agents also played key roles in the investigation, code-named Operation C-Chase.

A number of the bank officials were arrested when they arrived in Tampn to attend a wedding staged hy undercover agents that was to take place Sundny in Tarpon Springs. They were arrested as they headed to the bachelor party.

The charges focus on what U.S., British and French customs offi-

Turkey Decontrols Rates as Lira Plunges

figures."

plunged to a record low against the dollar on Tuesday, and the government freed interest rates in n bid to halt the fall, Prime Minister Turgut Ozal an-

nounced interest rates had been decontrolled after senior bankers held urgent talks with Central Bank officials in Ankara on the collapse of the lira.

The lira fell below 1,930 to the dollar on the interbank market. Deals between street traders in the Istanbul bazaar, known as Tahtakale, bid the carrency even lower. "The prices have gone crazy," said Ali Hospur, a bazear trader,

after the dollar at one point touched 1

Mr. Ozal was quoted by the heavily Monday morning support-ISTANBUL - The Turkish hra semi-official Anatolian News ing the fira by selling about \$85 million in its first-ever open inter-Agency as saying that decontrolling interest rates would lower mvention. flation and attract savings into lira But dealers' confidence was brodeposits.

ken when the official rate was fixed He did not say which rates would sharply lower in the afternoon. be decontrolled. Monetary sources had predicted deposit interest rates "The Central Bank wants to stawould be freed from their present bilize the market and bring the officeilings ranging from 64 percent for one-year lina deposits down to 10 percent for sight deposits,

Bankers fixed an official lira rate of 1,838 for Wednesday, down vicious circle." from 1,790 for Tuesday.

The official rate has fallen 12.8 percent since the interbank market was inangurated on Sept. 14.

A DEADLY SILENCE - The Ordeal of Cheryl Pierson: A Case of Incest and Murder

By Dena Kleiman. 305 pages. \$19.95. The Atlantic Monthly Press, 19 Union Square West, New York 10003.

Reviewed by Wray Herbert

PUBLISHERS list this kind of book in a category called "true crime," but "A Deadly Silence" rises above that categorization. It does so because of Dena Kleiman's excellent reporting and analysis of the cruci facts in the case of Cheryl Pierson, a Long Island, New York, teen-ager who in 1986 hired a fellow student to kill ber father.

The basic facts of the case are clear and uncontested: James Pierson, a successful 42-year-old electrician and businessman, was shot dead in his driveway as he left home for work on a cold February morning. The assassin was Sean Pica, a high school student and Eagle Scout with no record of violence. He had been paid \$400 by Cheryl Pierson, James Pierson's older daughter, and her boyfriend, Rob Cuccio, to carry out the murder.

Beyond these few facts things get legally ambiguous — and psychologically rich. James Pierson had a reputation in the community as a dedicated family man, if perhaps too strict a father, and a generous friend, if perhaps a bit vulgar in his manner. Cheryl was a sweet, devoted daughter, who during her mother's long illness and following her death had taken responsibility for running the household and raising her younger sister, JoAnn. She had taken her mother's part in more ways than one, as it turns out: As Cheryl testified in defense of her actions, James Pierson had been sexually fondling her since she was 11 years old, having sexual intercourse with her since she was 13.

logical issues. Why did Cheryl stay in an incestuous relationship for five years, and why, if she wanted out, didn't she seek legal remedy first?

It was this last question that most troubled Judge Harvey Sherman, who in an effort to understand heard extensive psychiatric testimony: He heard about the symptoms of post-traumatic stress disorder, about how victims in an effort to protect themselves emotionally

diagramed deal from a Pro-Am

event played Sept. 28 at the Caven-dish Club in Manhattan.

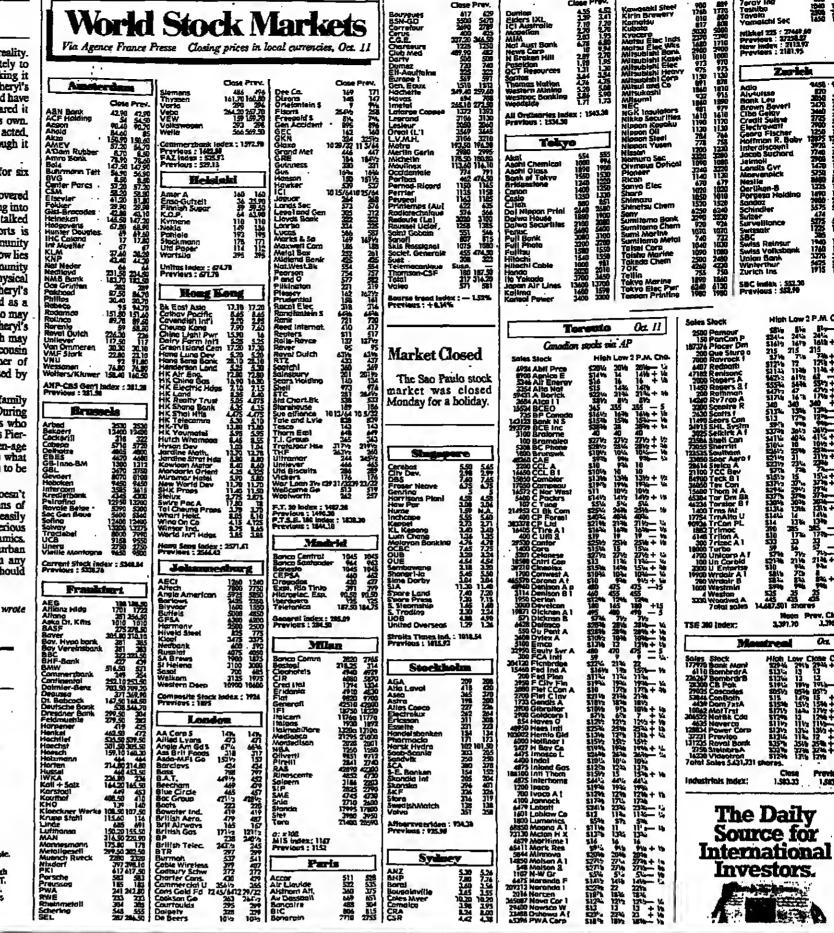

deny, or disassociate themselves from, a borrid reality. He heard about how incest victims come ultimately to hold themselves responsible for their abuse, making it impossible to go public. And he heard that Cheryl's impossible to go public. And he heard that Chery's murder plot was probably a fantasy, one that would have gone unfulfilled had she not, by coincidence, shared it with a classmate with psychological needs of his own. Cheryl was probably geneinely horrified, as she acted, when she discovered her father dead — even though it was she who contracted for the murder.

Even so, Judge Sherman sent Cheryl to jail for six months: Pica got 24 years. The court stopped there, but Kleiman, who covered the trial for The New York Times, did not. She dug into the family histories of the Piersons and Pica and talked to the Piersons' neighbors, and what she reports is startling. Scratch the veneer of amity and community stability in this suburban town, she writes, and below lies a shared secret of family aggression and community collusion. In the Pierson family the pattern of physical and sexual abuse can be traced back at least to Cheryl's great-grandmother. Her grandmother was abused as a child and became an abusive parent to James, who may have molested JoAnn in addition to Cheryl. Cheryl's mother was a victim of child abuse, and her death may have been hastened by James's beatings. Charyl's cousin was another victim, as was the adopted brother of Cheryl's boyfriend. Scan Pica's mother was abused by his stepfather.

What is most disturbing about this pattern of family violence is that none of it was ever reported. During whence is that note of it was total reported. During Cheryl's that, most of the dozen or so neighbors who testified said they had had suspicions about James Pier-son's relationship with Cheryl, yet only one, a teen-age girl, ever spoke up. Secrecy, as Kleiman notes, is what fuels abusive family relationships and allows them to be magnified from generation to selection. transmitted from generation to generation.

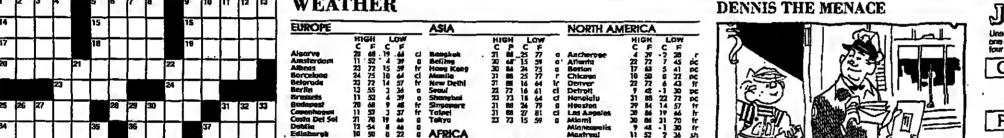

Kleiman is restrained in her reporting; she doesn't sensationalize. Indeed, her thorough investigations of the families' unhappy histories make what could easily have been a sensational true crime tale into a serious study of family pathology and community dynamics. And there is no reason to believe that the suburban community of Seldon has any more secrets than any other American community. "A Deadly Silence" should set off alarms from coast to coast.

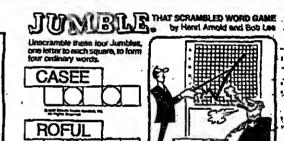

Wray Herbert, the editor of Psychology Today, wrote this for The Washington Post.

POSTCARD Manila's Jeepney

By Keith B. Richburg Washington Past Service ANILA — Every Southeast MASian country has its own form of cheap urban transportation --- Vietnam has three-wheeled cyclos, Thailand has motorized tuk-tuks, and Indonesia has long-

scorned betjaks. But of all the wheeled contraptions that ply the streets of Asia's capitals, the gold medal for ingenuity goes to the Philippine jeepney.

The jeepoey belehes black smoke. It disrupts traffic as it loads and unloads passengers on busy thoroughfares. Its drivers ignore traffic laws, like stopping at red lights. The jeepney's interior, jam-packed with passengers sitting elbow-to-elbow and knee-to-knee, can be as hot as a sauna, with the tropical sun baking the tin roof.

But at an average of about two pesos per ride (about 10 cents), the copney is the preferred method of transportation for this overcrowded city of eight millioo people.

Filipinos have become so dependent on the vehicles that the jeepncy has emerged as a national symbol. President Corazon C. Aquino, on a state visit last August, present-ed to the Sultan of Brunei a custom-made, hright-yellow jeepney. (The only other known jeepoey outside of the Philippines is owned by a pizza parlor in a small town in Wisconsin, which purchased it as an advertising gimmick for deliver-

The vehicle is a bastardized American World War II Army jeep with an elongated chasis, a truck axle and a Japanese diesel engine. The contraption is adorned with handpainted pictures of the Virgin more as extra space to sport slogans than for any utilitarian pur- back. pose. Among the back-flap favor-ites are "Devoted to You," "Together Forever," "The Wonder

BEFORE hitting the congested streets, each jeepney is christened with a name that bespeaks the conflicting strands of the Filipino psy-che: the driver's sexual prowess, his religiousness, his machismo, or

Dark."

typically busy Manila jeep stop in Quiapo recently were "Desert Fox," "Road Warrior," "Jesus Is Lord," and "Sweet Love." The clear favorite is "Rambo."

The jeepoey is the mode of travel for a country that is largely the sum of the disparate periods of its histo-ry — its Malay origins, its 400 years of Spanish colonization, the conversion to Catholicism, and its 40 years as an American colony.

The jeepney "was created out of necessity," says Leonardo Sarao Ir., the plant manager of Sarao Motors, the oldest jeepney-maker in the country. The jeepney is proof-positive, he said, that "the Filipino can adapt easily."

Sarao is the 35-year-old scion to the family that first piloted a jeepney after World War II, when the devastated country was left with no means of public transport, and the departing American soldiers were leaving behind a surplus of used military jeeps.

"Some enterprising Filipinos cut it in half, elongated the chasis and the top, and were ahle to solve our transportation problem," Sarao explained. Today, the Sarao family is still one of the largest manufacturers from its headquarters factory in Cavite province just outside of Manila.

UFTEN derided as a traffic menace, the jeepney is periodically the target of a crusade by some well-intentioned city official who wants to ban them from Manila streets. But the thousands of jeepney drivers now constitute a formi-dable lohby, and they have managed to make their weight felt. When the government announced a Mary on the side and plastic hands When the government announced a waving to passers-by from the fuel price increase last year, for dashboard. Flaps around the nires example, the jeepney drivers went seem to have been placed there oo strike and the city came to a virtual standstill. Prices were rolled

Not even Sarao expects the jeep-ney to last forever - but he does expect it to stay around at least as of You," and "Home Before long as the Philippines remains a poor country with automobiles priced out of the reach of the aver-age wage-earner. "As long as the economy doesn't change for the better, the jeep will stay." he says. "As long as the Philippines is not industrialized, the jeep will stay." And how long does Sarao expect

simply his dexterity at maneuver- to be making jeepneys? "With the ing Manila's treacherous thorough- country's external doot," Sarao fares. Some of the monikers at a said, "at least 15 to 20 years."

By Mike Zwerin onal Herald Tribune DARIS - Nina Simone is back. That said, describing the person who is back is not casy.

Torment of Nina."

Late last year, her version of "My Baby Just Cares for Me," which she first recorded in 1957, unexpectedly hit European charts (No. 1 in Britain) after Chanel revived it for a perfume commercial. Since then, as a more recent headline put it: "The Reluctant Diva Is Back on Song"

Her concert at the Olympia here two weeks ago was the last of a four-month 21city tour, including twice each in Paris and London (all sold-out). Later this month she will go to London to record the part of the Dragon Lady in "The Iron Man," a new musical for children by Pete Townshend of The Who. Blues singer John Lee Hooker also plays a role.

tinctive and charismatic voices of our time. Along with Billie Holiday, Frank Sinatra and Ella Fitzgerald and few others, it is instantly identifiable and universally respected. Bittersweet, with fractured intensity, the voice is a dark and incisive, intelligently presented, and it can make your hair stand up. Her choice of material is unique in its range, with hits including Gershwin's "I Love You Porgy," The Bee Gees "To Love Somebody," Jacques Brei's "Ne Me Quitte Pas" (in French) and "Pirate Jenny"

by Kurt Weill Cross-index her under jazz, rock, pop, gospel, soul and folk. She sings as she has lived — on the edge. Simone contends she cannot be "back" because she has never left. It is true that she has never stopped performing and record-ing, though in the early '80s she might charitably be described as keeping a low profile. As with Chet Baker, producers ro-hired her against their better judgment, even after she had showed up late or not at all, for the love of her talent and because, as with Charles Mingus, her public re-mained faithful, though she could be aggressive with them. And like Miles Davis,

Such difficulty, however, often stemmed from lack of tolerance for dumb questions. Having been her own worst enemy with frequent scowls and tantrums, her comportment during a recent interview by a French reporter seemed almost heroic: FR: Where do you live?

Headlines are sometimes a useful shorthand. These are some that appeared from 1965 through early 1987: "Daddy and Momma Always Wanted Her. to Play at Camegie Hall," "Black Power, Love and Me," "Singer Nina in Drugs Mystery," "I've Got Sorrow," "No One Wants 'Nutty Nina," ""It's a Hard Business,'" "The

Nina Simone has one of the most dis-

she has been called "difficult" by the press.

NS: 1 live in Holland.

Nina Simone got a new break with an old song used in a perfume commercial.

FR: It's a strange place to live, Holland. At the age of 3 it was discovered that I had NS: I don't find it strange, I find it okay. perfect pitch. And then a piano just some-After the reporter left, an observer remarked, "You have a lot of patience."

"Yes I do, don't I!" The affirmation was emphatic. She cocked her head with pride. There was also a hint of martyrdom in the voice. She appears to be learning patience as if learning how to walk. You sense her many wounds and how difficult it must be for her not to dwell on them.

But her revival thanks to Chanel is an unexpected opening and she is determined not to blow it. Since then, she has been on time for concerts and her performances have been consistent, often thrilling. Her stage manner is less bleak, sometimes downright joyful. She is performing in larger places and her price is substantially up. She has been attracting a new and enthusiastic young audience.

Christened Eunice Waymon, she was born the sixth of eight children in Tyron, North Carolina, in 1933, Her parents were "the poorest of the poor." Her mother, a Methodist minister, "prayed every day that we would have enough to eat and to wear. If we said 'darn,' she'd start praying for us. never even touched alcohol before. I hated cult.

perfect pitch. And then a piano just some-how appeared in our house. Honey, do you believe in miracles?" She practiced six hours a day from the age of 5. "By the time I finished high school

I could play anything. Bach and I hit it off marvelously." When asked today what music she listens to, she answers "Bach." (The master's influence can be heard in her

baroque keyboard version of Tadd Damer-on's bebop classic "Good Bait.") After a year studying piano at Juilliard, she was turned down for a scholarship after an audition by the Cruis Institute of Ma-sie in Philadelphia: "They didn't give any reason. But I knew I was too good oot to gerit. I never got over it. Black people were not supposed to be concert planists in those days. I had never thought about being hlack before."

At 20, hoping her mother would not find out she had taken a job singing and playing piano in an Atlantic City mghtclub, she changed her name to Nma Simone. "I had oever been in a place like that before. There were drunks passed out in the back. I'd

that bar. I hated show business, I still hate show business; it's a dirty business. You have to fight for respect, and for your money. I would rather have been a classical planist, Yes."

• • •

But she loved to improvise, she began to understand the connection between Bach and Charlie Parker. She learned the art of jazz ("I never do the same song the same way twice"). Before playing Carnegie Hall in 1957, she wrote to her parents: "I'm al Carnegie Hall, where you always wanted me to be, but I'm not playing Bach."

Active in the civil rights movement in the early '60s, she wrote such protest songs as To Be Young Gifted and Black" (her music to words by Langston Hughes) and "Mississippi Goddam." She received honorary doctorates from Malcolm X University in Chicago (the humanities) and the University of Massachusetts at Amherst (music). Her name on her calling card is prefaced by "Dr."

By 1965, married to an former New York detective who was also her manager, she had become tense, with a tendency to emotional outbursts. "I have to keep go-ing," she said. "I need the money. I oeed the acclaim. It's like a monkey on my back." She moved to Europe from New York "to escape racism and the tension." She lived in Paris for three years, for seven in Liberia, where she became engaged to a politician, and after that broke off her relationship with another Liberian when he assaulted her.

Then Switzerland. "The price of living in Switzerland was loneliness. I love that country, I lived there for almost 20 years. I don't find the Swiss cold, just introspective. And fame gets in the way of human relationships. Underneath, I'm like any other woman, I need to be in love. I missed companionship and intimacy, I missed sharing with friends."

staring with friends. For the first time in many years she is not employing a bodygnard. Her friends and business associates take this to be an important sign of health. Some of those who love and respect her but regretfully distanced themselves from her volatility have returned. Last week furniture was delivered to the comfortable apartment she has purchased in a pleasant provincial

Dutch city. Now she is busy unpacking and begin-ning to reread the 17 handwritten volumes of the diary she has kept since the age of 17. She is negotiating with a publisher for her autobiography, which has the working title "Between the Keys."

sadness. My book will be about having to hridge the gap between love, normal living, show business and music, it's been diffi-

José Lutzenberger, a Brazilian engineer fighting the destruction of the Amazon jungles, the Friends of the Earth group fighting the log-ging industry in Malaysia, and John Turner, a British specialist in housing for the poor, will share the S100 000 Right Livelihood Award \$100.000 Right Livelihood Award sometimes called the "alternative Nobel prize." An honorary award will go to Denmark's base Kemp Genetike, founder and director of the International Rehabilitation and Research Center for Torture Victims. The prizes will be awarded Dec. 9, the eve of the Nobel prize ceremonies in Stockholm and Oilo.

Sam Walton, Wal-Mart's principal stockholder, once again heads the Forbes magazine list of the 400 wealthiest American, even though the value of his holdings has dropped from \$8.5 billion to \$6,7 billion. Forbes said Walton is only the world's fifth-richest person, far-below Japan's Yeshiski Tsutsuni who is worth an estimated \$189 billion.

The pianist Byron Janis, who in. 1960 was the first American arist to be sent to the Soviet Union meder the then-new cultural exchange program, will be back there next : week to perform at a meeting of the members of the Global Forum of Spiritual and Parliamentary Leaders on Human Survival. Forum members will be meeting with Soviet ministers and leaders of the Russian Orthodox Church. Janis is bringing a special present for the Soviet leader, Mikhail S. Gotte chev, two films that Gorbachevers quested: Gary Cooper's "Love m the Afternoon" and "Friendly Persuasion.

Robin Givens fired lawyer Marvin Mitchelson in her divorce suit against boxer Mike Tyson. The actress's oew lawyer. Raoul Felder, says he would like to negotiate a settlement with her husband. The Daily News io New York said that Givens and her mother, Ruth Rop-er, were angered because Mitchelson agreed to appear on a televison program to talk about the case," even though Mitchelson canceled the appearance.

Hank Williams Jr., was voted the Country Music Association's en-. tertainer of the year for the second straight year. His "Born to Boogie." won the top alhum award.
